The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes recommendations for an action-oriented blueprint for the future of nursing.

This new edition focuses on preparing your students to assume the role as a significant member of the health-care team and manager of care, and is designed to help your students transition to professional nursing practice. Developed as a user-friendly text, the content and style makes it a great tool for your students in or out of the classroom. (Midwest).

This comprehensive text explores the philosophy that all nurses are leaders who use creative decision making, entrepreneurship, and life-long learning to create a work environment that is efficient, cost-effective, and committed to quality care. Broad and comprehensive coverage encompasses leadership and management theories and processes by synthesizing information from nursing, health care, general administration and management, and leadership literature. Activities teach them how to research decision-making data (participatory action research process) and analyze and make reliable choices in managing their work environment. Theory-based, scholarly yet practical, this is the most comprehensive and engaging baccalaureate text on the market.

Comprehensive and easy to read, this authoritative resource features the most up-to-date, research-based blend of practice and theory related to the issues that impact nursing management and leadership today. Key topics include the nursing professional's role in law and ethics, staffing and scheduling, delegation, cultural considerations, care management, human resources, outcomes management, safe work environments, preventing employee injury, and time and stress management. Research Notes in each chapter summarize relevant nursing leadership and management studies and show how research findings can be applied in practice. Leadership and Management Behavior boxes in each chapter highlight the performance and conduct expected of nurse leaders, managers, and executives. Leading and Managing Defined boxes in each chapter list key terminology related to leadership and management, and their definitions. Case Studies at the end of each chapter present real-world leadership and management situations and illustrate how key chapter concepts can be applied to actual practice. Critical Thinking Questions at the end of each chapter present clinical situations followed by critical thinking questions that allow you to reflect on chapter content, critically analyze the information, and apply it to the situation. A new Patient Acuity chapter uses evidence-based tools to discuss how patient acuity measurement can be done in ways that are specific to nursing. A reader-friendly format breaks key content into easy-to-scan bulleted lists. Chapters are divided according to the AONE competencies for nurse leaders, managers, and executives. Practical Tips boxes highlight useful strategies for applying leadership and management skills to practice.

Financial Management for Nurse Managers: Merging the Heart with the Dollar, Fourth Edition is a unique text that addresses the financial management issues faced by nurse leaders in a variety of settings, including hospitals, ambulatory/outpatient clinics, long-term care facilities, and home care. With an evidence-based and practical approach, it covers a wide-range of financial information, including healthcare finance, economics, budgeting, reimbursements, accounting, and financial strategies. Completely updated and revised, the Fourth Edition features a new, streamlined structure that concentrates on core financial management topics while condensing supplemental material. As a result, the text is organized into three parts: " Healthcare, the Economy, and Value-Based Purchasing " Budget Principles " Financial Strategies and Accounting Issues The Fourth Edition also focuses on bringing financial concepts to life for students with real-life applications in nursing practice.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Extensively updated to reflect the latest changes in the healthcare system, EFFECTIVE LEADERSHIP AND MANAGEMENT IN NURSING, 8/e will help both practicing and student nurses manage successfully in today's challenging, resource-limited healthcare environments. The most up-to-date and complete learning package for nurses who intend to manage, this book combines practically with conceptual understanding, tapping expertise of contributors from many relevant disciplines, especially healthcare management professionals. This edition offers new or expanded coverage of healthcare reform; quality initiatives; Magnet-certified hospitals; emotional and multicentric leadership; social media; preparation for large-scale emergencies; prevention and response to bullying and workplace violence; and much more. Throughout, new MediaLink boxes link readers to updated resources and activities on the web.
