Finally you can access the power of personal influence The fascination with Dark Psychology, the study of the art and science behind manipulation and mind control, has exploded since this clinical research term first appeared in academic journals back in 2004. In Dark Psychology and Manipulation readers will be taken into the minds, the behaviors, the tactics and the techniques of the Narcissists, Machiavellians, Psychopaths, and Everyday Sadists living and working among us. You've worked with some of these people, you've worked for them, you've dated them, married them, divorced them, admired them, feared them, but most of all wondered what it is that makes them do the dark and disturbing things they do. Whether it's your sister going through one relationship after another with an abusive, controlling, manipulative boyfriend, first husband, fiancée; or it's your own experience of having to work for an egotistical, scheming, backstabbing yet somehow wonderfully charismatic supervisor; or it's your neighbor's teenage son who seems to enjoy burning ants in the backyard on the weekends how dangerous are these people? Are they normal? Is their behavior forgivable? Should we be modeling some of our own ways of doing things-at work, in romance, at the grocery store-after them? Not all of them are crazy. Some of them are even wildly successful-in business, in romance, in general. Are they certifiable or is their behavior just a little more extreme than mine? As the field of Dark Psychology continues to grow, and researchers, clinical psychologist, social engineers, therapists, and other experts (and survivors) continue to find out more about what makes these people tick, you'll find analyses of the latest studies in Dark Psychology. Plus, the book gives readers quick and easy breakdowns of how each dark personality is different from the other, and how they are similar. Learn more about the Narcissist-and how to spot one, how to know when you're being worked by one. Find out why Psychopaths have suddenly become role models for many a CEO and upper management businessperson. How did they get on untouchable to the corporate version of James Bond? Take a look at the various techniques used by these personalities of the Dark Triad: manipulation, brainwashing, seduction. All of which are really just after two things: power and control. Do

yourself a favor: educate yourself before others decide how you should be educated. Learn how others have been trying to seduce you, trying to lead you astray, down a path that they've chosen, not that you chose. Don't be the prey. Which doesn't mean you have to be the predator, either. It just means you'll be able to choose. It means you won't be at the mercy of anyone from this world of Dark Psychology. Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (Law 1: Never Outshine the Master), others teach the value of confidence (Law 28: Enter Action with Boldness), and many recommend absolute self-preservation (Law 15: Crush Your Enemy Totally). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
