Excerpt from The Vigilante Manual, a Handbook of Social Order: Standards, Information and Suggestions Useful to the Vigilante It must be perfectly plain to every man that all disputes and quarrels and strife in the world are over things upon which the contestants are not agreed, and that, among human beings, at least, all the worst disputes and quarrels and strife are over social matters such as law, justice and rights. There can be no rational dispute over how many inches there are in an English foot today, or how many cents in a United States dollar, or minutes in an hour. All men who know are agreed upon these things. Those who don't know can find out, and you and I would consider it insane to quarrel about them. SCP Foundation anomalies SCP-1000 through to SCP-1999, including containment procedures, auxiliary documents, experiment logs and interview transcripts. An encyclopedia of the unnatural. The Foundation Operating clandestine and worldwide, the Foundation operates beyond jurisdiction, empowered and entrusted by every major national government with the task of containing anomalous objects, entities, and phenomena. These anomalies pose a significant threat to global security by threatening either physical or psychological harm. The Foundation operates to maintain normalcy, so that the worldwide civilian population can live and go on with their daily lives without fear, mistrust, or doubt in their personal beliefs, and to maintain human independence from extraterrestrial, extradimensional, and other extranormal influence. Our mission is three-fold: Secure The Foundation secures anomalies with the goal of preventing them from falling into the hands of civilian or rival agencies, through extensive observation and surveillance and by acting to intercept such anomalies at

the earliest opportunity. Contain The Foundation contains anomalies with the goal of preventing their influence or effects from spreading, by either relocating, concealing, or dismantling such anomalies or by suppressing or preventing public dissemination of knowledge thereof. Protect The Foundation protects humanity from the effects of such anomalies as well as the anomalies themselves until such time that they are either fully understood or new theories of science can be devised based on their properties and behavior. ————— About the ebook This ebook is an offline edition of the second series of fictional documentation from the SCP Foundation Wiki. Es notorio que en nuestra sociedad actual, la violencia hacia el prójimo y hacia los bienes ajenos ha venido incrementándose espectacularmente, de tal forma que ha llegado a traducirse en una sensación de inseguridad generalizada que afecta tanto al ámbito de las personas privadas como al de las personalidades públicas con cargos políticos o institucionales, cuya protección asigna la ley a las distintas policías y, en su caso, a la seguridad privada. Esa inseguridad ha propiciado un notable incremento de las necesidades y requerimientos de personal de seguridad, por parte de las entidades públicas así como de los particulares, con el consiguiente aumento de las necesidades de formación de personas, tanto de forma teórica como práctica; este manual pretende cubrir el temario básico que constituiría la formación de los vigilantes de seguridad.

En los últimos años, hay un incremento de las necesidades y requerimientos de personal de seguridad, tanto por parte de las entidades públicas como de los particulares, con el consiguiente aumento de las necesidades de formación de personas altamente preparadas. En esta obra se recoge un temario editado por el Ministerio del Interior, para su desarrollo por parte de los centros de formación en cursos para vigilantes de seguridad en la especialidad de explosivos, tanto teórica como práctica.
