This introductory text assumes little prior scientific knowledge on the part of the student. It includes sufficient information for some shorter introductory botany courses open to both majors and nonmajors, and is arranged so that certain sections can be omitted without disrupting the overall continuity of the course. Stern emphasizes current interests while presenting basic botanical principles. This latest edition incorporates measurable learning outcomes and updated readings. Students will be introduced to the new classification of plants and plant-related species, integration of biotechnology into several chapters and inclusion of new text boxes addressing the areas of ecology, evolution and molecular biology. New photos have replaced older pictures or have been added also. With this edition we introduce McGraw-Hill Connect® Botany, a web-based assignment and assessment platform that gives students the means to better connect with their coursework, with their instructors, and with the important concepts that they will need to know for success now and in the future. With McGraw-Hill Connect Botany, instructors can deliver interactive assignments, quizzes and tests online. Nearly all the questions from the text are presented in an autogradable format and tied to the text's learning objectives.

The 500 essential terms you need to know to master SAT vocabulary--all in one box! McGraw-Hill's SAT Vocabulary Flashcards is your edge in conquering the SAT. Expert author Mark Anestis has selected 500 key words that frequently appear on SAT exams to help you achieve up to a maximum 800 verbal score. The best part is you can use these flashcards wherever you are--at home, at the library, on the bus, anywhere! You can use these flashcards to memorize vocabulary--thanks to example sentences included with each term, or to quiz yourself to check your progress. However you use them, McGraw-Hill's SAT Vocabulary Flashcards will help you achieve your desired score.

500 AP style questions with detailed answer explanations to prepare you for what you'll see on test day 5 Steps to a 5: 500 AP Chemistry Questions to Know by Test Day gives you 500 practice questions that cover the most essential course material and help you work toward a 5 on the test. The questions parallel the format and degree of difficulty that you'll find on the actual AP exams and are accompanied by answers with comprehensive explanations. The questions in this book were written by expert AP teachers who know the exam inside and out, so they closely reflect what you'll see when you'll sit for the AP Chemistry test. This valuable study guide features: •500 AP-style questions and answers •Detailed review explanations for right and wrong answers•Close simulations of the real AP exam•Updated material that reflects the latest AP exam
