students. Through extensive student research, we have created a textbook and learning system designed to meet the needs and maximize the workflow habits of today's college students. Students told us they wanted a briefer text with more visual appeal...and a less expensive price. We listened. We also listened to instructors. We learned about the challenges that they faced in their classrooms every day and what their ideal course materials would look like. They told us they needed an engaging solution for their course needs – but without sacrificing quality and content. The result is PsychSmart. Authored by master teachers, PsychSmart uses a wealth of real world examples, media and online interactivities to create a dynamic and engaging learning solution designed to reach today's students. It also includes

This volume encompasses the range of issues encountered by language scholars who teach and research in departments of languages and cultures within the higher education system, predominantly in Australia, but touching other universities worldwide. Related studies on language planning, methodology or pedagogy have focused on one or more of these same issues, but rarely on their totality. Intersections as a metaphor running discreetly through the essays in this volume, connects them all to a lived reality. The field of

languages and cultures, as it is practised and reflected upon in Australian universities, is essentially an interdisciplinary and interconnecting space - one in which linguistic and disciplinary diversities meet and join forces, rather than collide or disperse along different pathways. The international and local studies featured here focus on language planning, new pedagogies and language reclamation and link to meeting points and commonalities. They show that language scholars are increasingly finding themselves on common ground as they tackle issues of policy and practice affecting their field, whether within their institutions, within the tertiary system, or within the framework of government policy.

science-shy students. The text now represents one of the cornerstones of introductory biology education and was founded on the belief that teaching science from a human perspective, coupled with human applications, makes the material more relevant to the student. As scientists and educators, the authors are aware that scientific discovery is a dynamic process and the advances in digital publishing are allowing authors to update content on a regular basis.

More and more we are challenged by today's learning environment – students are different, digital tools are evolving, and instructors are continually asked to do more with less yet show greater results. With the creation of *Many Europes, Choice & Chance in Western Civilization*, an entirely

integrated program, we recognize this changing environment and set out with the goal of better meeting the western civilization course challenges of improving student performance, critical analysis skills, and overall comprehension in a continually evolving teaching and learning environment. What does it mean to have an integrated program? Rather than a traditional narrative text that then has ancillary support material or supplements tacked onto it, Many Europes was constructed as a program. Each narrative section has clearly stated learning objectives that are tied to the digital tools which drive the program's assessment. A key tool in driving knowledge is McGraw-Hill's LearnSmart, an adaptive assessment tool, which has proven results of increasing student comprehension and overall course results.

Yet, we realize that while history instructors want students to know basic historical facts, the actual goal of the course is improving student's critical thinking abilities. Our Critical Missions develop analysis skills through the examination of maps, primary sources and the completion of a written argument. In addition, several other assignment types within McGraw-Hill's Connect drive the development of analysis skills and are also tied directly to learning objectives. What do we mean by Choice? Unique to this program, Many Europes discusses European history as a series of choices within a set of historical circumstances, driving greater critical analysis as students realize that Europe's fate was never inevitable but instead was created by individuals with diverse voices and perspectives. Choice also means flexibility. Many Europes

flexible content including a customizable documents collection available as print or digital as well as many user options from a completely digital experience to a hybrid print and digital experience, or if you must, an all print experience. What do we mean by Chance? In history chance shows itself as a dropped letter, an unexpected storm, or surprise turn of events. Chance can also show itself as a new way, path, or direction that allows for the anticipation and expectation of something better. Many Europes flexible content coupled with powerful digital learning tools and a customizable documents collection gives users an innovative choice for the teaching and learning of Western Civilization as well as a better chance for improved student results and course outcomes.

Students dive in to intensive communicative practice, building confidence in their ability to interact in a meaningful way in Spanish with access to a wealth of tools to support and guide their progress, including video chat, interactive online scenarios, and an adaptive diagnostic program. In addition, students are able to create their own sense of community, resulting in a unique individual experience that will evolve organically with each student, sparking their natural curiosity about their world. Tu mundo employs a communicative methodology that focuses on developing all four skills, supported by the best digital learning platform available today: Connect Spanish.

Because Tu mundo was designed with today's students in mind, students are more readily engaged with the content, thanks to their avid use of web-based tools, their innate interest the cultures of other countries, and their preference for visual presentations and quick access to information. Tu mundo reflects the world in which our students live; where online learning, social networking, texting, instant messaging, mobile devices, tablets, online gaming, and virtual scenarios are an integral part of daily life. What are the pillars of Tu mundo? Our extensive and ongoing research in the Intro Spanish course has led to the creation of Tu mundo, with a strong emphasis on the 5 C's: Communication, Culture, Connections, Comparisons, and Communities. Tu mundo delivers content in a variety of ways in order to ensure

1.Improved communication performance & skills: By jumping directly into communicative practice at the beginning of every chapter, students are encouraged to immerse themselves in the experience of active learning, whether in a face-to-face or online classroom. Grammar is presented at the end of each chapter, allowing students to study at home and work through the exercises in Connect Spanish for automatic feedback, coming to class ready to engage in discussion. This emphasis on communication in the classroom makes Tu mundo the most effective communicative program on the market. No other program commits to this methodology like Tu mundo.

2.Creating consistent learning outcomes: Tu mundo offers a powerful adaptive learning system called LearnSmart that

allows students to identify grammatical structures and vocabulary words not yet mastered and to receive an individualized study program for mastering them. Students of all experience levels will benefit from using LearnSmart, which includes built-in reporting and a competitive scoreboard. Connect Spanish Voice Board and Blackboard Instant Messenger (BbIM), both powered by Wimba, ensure that students are getting ample practice time no matter where their classes take place. 3. Building community and connections between students: Creating a sense of community in the face-to-face or virtual classroom is a huge part of language learning and something that Tu mundo does implicitly. Whether students collaborate in a physical classroom or in Connect Spanish, they are provided with

opportunities to engage in meaningful conversations and collaborative task-based activities. The Amigos sin fronteras, a cast of young Hispanic students that share common interests, are featured throughout the entire program and showcased in the Así somos video segments. Through the Amigos sin fronteras, students are exposed to a friendly model on how to apply what they are learning to another friendly group of students, i.e. their own class. In addition, Tu mundo presents an interactive online environment that applies engaging content and task-based scenarios that enable you to practicing your language skills in a fun, immersive way. Thus, students can practice Spanish in a context that is not only fun but extremely motivating. 4. More Culture and Comparisons coverage: Culture is so often left

behind—so Tu mundo offers it throughout the program. Each chapter features a country of focus which doubles as the home country of one of the fifteen amigos. Along with in-chapter cultural sections, every chapter of Tu mundo features a second video segment called Mi país (within Connect), narrated by the amigos themselves, as they share information about their native countries. This window into the lives of the amigos provides a point of comparison for you to describe your own life. The Mundo interactivo scenarios represent a variety of cultural contexts in which you can interact with language and culture in a way that is meaningful to you.

Welcome to the second edition of *Avanti!* In the new edition our priorities remain the same as those of the first edition, to provide an introductory language course that meets the needs of both instructors and learners. Three significant characteristics set *Avanti!* apart from other first-year Italian texts: First, *Avanti!* satisfies students' desire to communicate in everyday situations right from the start and to explore Italy's rich and unique culture in meaningful ways. Second, *Avanti!* responds to instructors' concern that most textbooks attempt to cover too much material in the first year. We have designed an elementary course that reflects reasonable expectations for the amount of material that most beginning

learners can acquire in one year of classroom instruction. Third, the methodology of Avanti! is firmly grounded in current findings of research in second language acquisition and foreign language pedagogy. The materials provide support for instructors, particularly those with limited experience, whose goals are to teach mainly, if not exclusively, in Italian, and to create the student-centered, communicative classroom environment that is promoted by this research. The title Avanti! was chosen to convey the forward-thinking approach of this exciting new program.
