"To change the way students see the world: this

is my goal in teaching economics and in writing this book. Three facts about students are my guiding principles.

First, they want to learn, but they are overwhelmed by the volume of claims

succinct  
explanations.

And third,  
students want to  
make sense of

and be better  
prepared for  
life after  
school. So, they  
must be shown  
how to apply the
