Midnight Express tells the gut-wrenching true story of a young man's incarceration and escape from a Turkish prison. A classic story of survival and human endurance, told with humor, honesty, and heart, it became a worldwide best-seller and the Academy Award-winning blockbuster film of the same name. In 1970 Billy Hayes was an English major who left college in search of adventures to write about, like his hero Jack London. He had a rude awakening when he was arrested at the airport in Istanbul trying to board a plane while carrying four pounds of hashish, and given a life sentence. After five brutal years, relentless efforts by his family to gain his release, and endless escape plotting, Hayes finally took matters into his own hands. On a dark night, in a wailing storm he began a desperate and daring escape to freedom... This is the astounding journey, told in Billy Hayes's own words, of those five years of living hell and of the harrowing ordeal of his time on the run.

Kate stared at the rickety wooden bridge. There were boards loose on its narrow walkway. There was no railing to hold on to. She was afraid to cross this bridge even in daylight. But she had to cross it now. She had to get to the train station in time to stop the midnight express. When a heavy storm destroyed the bridge over Honey Creek, near Kate Shelley's home in Moingona, Iowa, fifteen-year-old Kate bravely rushed out into the storm, saving the lives of two men and preventing hundreds of other lives from being lost. This is the true story of a young girl's resourcefulness and courage in the face of great danger.

An intimate memoir by the controversial and outspoken, Oscar-winning director and screenwriter about his complicated New York childhood, volunteering for combat, and his struggles and triumphs making such films as Platoon, Midnight Express, and Scarface. Before the international success of Platoon in 1986, Oliver Stone had been wounded as an infantryman in Vietnam, and spent years writing unproduced scripts while driving taxis in New York, finally venturing westward to Los Angeles and a new life. Stone, now 73, recounts those formative years with in-the-moment details of the high and low moments: We see meetings with Al Pacino over Stone's scripts for Scarface, Platoon, and Born on the Fourth of July; the harrowing demon of cocaine addiction following the failure of his first feature, The Hand (starring Michael Caine); his risky on-the-ground research of Miami drug cartels for Scarface; his stormy relationship with The Deer Hunter director Michael Cimino; the breathless hustles to finance the acclaimed and divisive Salvador; and tensions behind the scenes of his first Academy Award-winning film, Midnight Express. Chasing the Light is a true insider's look at Hollywood's years of upheaval in the 1970s and '80s.

Pipi is an average girl from a small town in the early 1980s-a little shy, a bit lonely, and very curious. She loves her home and family but dreams of more. She wants to see the world, and she has a train ticket to get her there. When a chance encounter with an eccentric homeless man puts her on board the Midnight Express, she discovers a world rich with the magic of nature. The Midnight Express is not your normal train-it's more Wild West than modern ones. It has a compartment just for chocolate and a magical museum. And behind a hidden door marked for magicians only, the mysterious stranger awaits. The mysterious stranger is a tall, dark skinned middle-aged man with a long handheld wooden cane, who is wearing a cape and a vest bearing a hodgepodge of various items. He calls himself a wizard and speaks of how imagination and willpower can shape reality and of the dark forces that now threaten the magical community. Fans of Harry Potter and C. S. Lewis's works will delight in this fresh tale of spiritual quest, magic and mystery. Where imagination is magic, nothing happens by chance, and the most curious journey of all is one of self-discovery.
