Success boils down to one thing: making good decisions. Learn the right framework now that can make all the difference later when faced with terrible options, deep anxiety and fear of failure. Access the decision framework David Siegel used when he took over as CEO of Meetup, the world's leading platform for making connections and finding your community. Let David's success during one of the most tumultuous times in his company's history help guide you on your own path. Decide and Conquer helps all leaders navigate the big decisions that will impact their future and make their organizations a success. David outlines the 44 challenges leaders face when starting a new position, then shows you the decision framework he applied to overcome challenges in his

own role. David takes you on an epic journey of corporate and personal survival that includes industry titans like Adam Neumann, Barry Diller, Jack Welch, Bill Ackman, and other leaders. In *Decide and Conquer*, you will learn to: Apply principles like open communication, transparency, and kindness to inform great decision making. Set yourself up to succeed, even before you start, by removing potential roadblocks before they become a problem. Be a bold and decisive leader and not succumb to fear. By applying the principles he had learned in previous leadership positions, David was able to make the many critical decisions that would mean life or death for Meetup when WeWork decided to sell the company. From deciding to accept the position and negotiating terms to managing a seemingly endless series of crises during the sale and global pandemic, *Decide and Conquer* walks readers through the key decisions they will face with invaluable advice for each one.

Community demonstrates why understanding the roles of the diverse organizations of this sector is vital to anyone concerned with improving health and public health today. This forward-thinking book explains how citizen sector organizations work, their immediate and long term impact on public health, and the key players and business dynamics involved. With an emphasis on innovative approaches, it provides an "insiders view" into practical considerations regarding organizational structure, financing, and operations. A sampling of the coverage: The new era of social entrepreneurship and philanthropy Sustainability in international public health NGOs Front-line perspectives from both well-established and grassroots CBOs Faith-based organizations and public health NGOs and the military: evolving relationships in conflict and disaster zones Understanding the environmental health movement and its impact Project YEAH: a youth AIDS organizations story. Whether you are involved in clinical care, health research, public health programs, or policy development and implementation, this book provides key insights and skills, and will serve as an invaluable resource in working most effectively with and within these dynamic organizations. body>

For fans of David Sedaris and Nora Ephron, here is a humorous, irreverent, and poignant look at the gifts, stereotypes, and inevitable challenges of aging, based on the wildly popular New York Times essay from award-winning journalist Steven Petrow. Soon after his 50th birthday, Steven Petrow began assembling a list of "things I won't do when I get old"—mostly a catalog of all the things he thought his

then 70-something year old parents were doing wrong. That list, which included “You won’t have to shout at me that I’m deaf,” and “I won’t blame the family dog for my incontinence,” became the basis of this rousing collection of do’s and don’ts, wills and won’ts that is equal parts hilarious, honest, and practical. The fact is, we don’t want to age the way previous generations did. “Old people” hoard. They bore relatives—and strangers—with tales of their aches and pains. They insist on driving long after they’ve become a danger to others (and themselves). They eat dinner at 4pm. They swear they don’t need a cane or walker (and guess what happens next). They never, ever apologize. But there is another way . . . In *Stupid Things I Won’t Do When I Get Old*, Petrow candidly addresses the fears, frustrations, and stereotypes that accompany aging. He offers a blueprint for the new old age, and an understanding that aging and illness are not the same. As he writes, “I meant the list to serve as a pointed reminder—to me—to make different choices when I eventually cross the threshold to ‘old.’” Getting older is a privilege. This essential guide reveals how to do it with grace, wisdom, humor, and hope. And without hoarding.

inspiring and interactive, and packed with prompts, charts, quizzes, and full-color illustrations, *Belong* takes readers on a two-part journey. Part one is Going IN—a gentle but intentional process of self-discovery and finding out your true energy levels and VIA (values, interests, and abilities). Part two is Going OUT—building on all that you’ve learned about yourself to find those few special people who feed your soul, and discovering, or creating, the ever-widening groups that align with your aims and desires. As the Co-founder and CEO of the popular global morning dance community Daybreaker, Radha Agrawal developed an immense offline community with her team of Community Catalysts in 25 cities and on a dozen college campuses around the world by creating a physical space for people to connect, self-express, sweat, and dance. Now, Radha offers the life-changing strategies, tips, and tricks for making friends that will light your fire and give you the exhale of “Ahh, I’m home.” “Radha has written a book that’s fun to read, easy to digest, and embodies deep wisdom. This isn’t just a book I’m endorsing. This is a book that I want to buy multiple copies of because I have so many friends and acquaintances that will benefit from it. It’s the first book I couldn’t wait to finish reading it so I could give my copy to one of my friends to read the same day.” —Tony Hsieh, CEO of Zappos and author of *Delivering Happiness*

over many years. David Spinks is the master of this craft."—Nir Eyal, bestselling author of *Hooked* and *Indistractable* The rise of the internet has brought with it an inexorable, almost shockingly persistent drive toward community. From the first social networks to the GameStop trading revolution, engaged communities have shown the ability to transform industries. Businesses need to harness that power. As business community expert David Spinks shows in *The Business of Belonging: How to Make Community your Competitive Advantage*, the successful brands of tomorrow will be those that create authentic connection, giving customers a sense of real belonging and unlocking unprecedented scale as a result. In his career of over 10 years in the business of building community, Spinks has learned what a winning community strategy looks like. From the fundamental concepts—including how community drives measurable business value and what the appropriate metrics are—to high-level community design and practical engagement techniques, *The Business of Belonging* is an epic journey into the world of community building. This book is for decision makers who want to better understand the value and opportunity of community, and for community professionals who want to level up their strategy. Featuring a foreword by Startup Grind and Bevy cofounder Derek Andersen, it will give you a step-by-step model for strategically planning, creating, facilitating, and measuring communities that drive business growth. Attracting and retaining community members who are also loyal customers, brand evangelists, and leaders—that's the goal for today's connected businesses, and this book is the map to

The brain ... There is no other part of the human anatomy that is so intriguing. How does it develop and function and why does it sometimes, tragically, degenerate? The answers are complex. In *Discovering the Brain*, science writer Sandra Ackerman cuts through the complexity to bring this vital topic to the public. The 1990s were declared the "Decade of the Brain" by former President Bush, and the neuroscience community responded with a host of new investigations and conferences. *Discovering the Brain* is based on the Institute of Medicine conference, *Decade of the Brain: Frontiers in Neuroscience and Brain Research*. *Discovering the Brain* is a "field guide" to the brain--an easy-to-read discussion of the brain's physical structure and where functions such as language and music appreciation lie. Ackerman examines how electrical and chemical signals are conveyed in the brain. The mechanisms by which we see, hear, think, and pay attention--and how a "gut feeling" actually originates in the brain. Learning and memory retention, including parallels to computer memory and what they might tell us about our own mental capacity. Development of the brain throughout the life span, with a look at the aging brain. Ackerman provides an enlightening chapter on the connection between the brain's physical condition and various mental disorders and notes what progress can realistically be made toward the prevention and treatment of stroke and other ailments. Finally, she explores the potential for major advances during the "Decade of the Brain," with a look at medical imaging techniques--what various technologies can and

cannot tell us--and how the public and private sectors can contribute to continued advances in neuroscience. This highly readable volume will provide the public and policymakers--and many scientists as well--with a helpful guide to understanding the many discoveries that are sure to be announced throughout the "Decade of the Brain."
