NEW YORK TIMES AND WALL STREET JOURNAL BESTSELLER □ Winner of CMI Management Book of the Year 2019 Based on an in-depth analysis of over 2,600 leaders drawn from a database of more than 17,000 CEOs and C-suite executives, as well 13,000 hours of interviews, and two decades of experience advising CEOs and executive boards, Elena L. Botelho and Kim R. Powell overturn the myths about what it takes to get to the top and succeed. Their groundbreaking research was the featured cover story in the May-June 2017 issue of Harvard Business Review. It reveals the common attributes and counterintuitive choices that set apart successful CEOs—lessons that we can apply to our own careers. Much of what we hear about who gets to the top, and how, is wrong. Those who become chief executives set their sights on the C-suite at an early age. In fact, over 70 percent of the CEOs didn't have designs on the corner office until later in their careers. You must graduate from an elite college. In fact, only 7 percent of CEOs in the dataset are Ivy League graduates--and 8 percent didn't graduate from college at all. To become a CEO you need a flawless résumé. The reality: 45 percent of CEO candidates had at least one major career blowup. What those who reach the top do share are four key behaviors that anyone can master: they are decisive; they are reliable, delivering what they promised when the promise it, without exception; they adapt boldly, and they engage with stakeholders without shying away from conflict. Based on this breakthrough study of the most successful people in business, Botelho and Powell offer career advice for everyone who aspires to get ahead. Based on research insights illustrated by real life stories from CEOs and boardrooms, they tell us how to: - Fast-track our career by deploying the career catapults used by those who get to the top quickly - Overcome the hidden handicaps to getting the job we want. - Avoid the 5 hazards that most commonly derail those promoted into a new role. For everyone who aspires to rise up through the organization and achieve their full potential, The CEO Next Door is an essential guide.

FROM ONE OF TODAY'S FOREMOST INNOVATION LEADERS, AN INSPIRING, PERSONAL APPROACH TO MASTERING CHANGE IN THE FACE OF UNCERTAINTY. NAMED A 2018 BEST BUSINESS BOOK PICK BY FAST COMPANY AND WIRED UK. Confronting change is incredibly hard, both organizationally and personally. People become resistant. They are afraid. Yet the pace of change in our world will never be slower than it is right now, says Beth Comstock, the former Vice Chair and head of marketing and innovation at GE. *Imagine It Forward* is an inspiring, fresh, candid, and deeply personal book about how to grapple with the challenges to change we face every day. It is a different kind of narrative, a big picture book that combines Comstock's personal story in leading change with vital lessons on overcoming the inevitable roadblocks. One of the most successful women in business, Comstock shares her own transformation story from introverted publicist to GE's first woman Vice Chair, and her hard-won lessons in shifting GE, a 125 year old American institution, toward a new digital future and a more innovative culture. As the woman who initiated GE's Ecomagination clean-energy and its (and NBC's) digital transformations, Comstock challenged a global organization to not wait for perfection, but to seek out emerging trends, embrace smart risks and test ideas boldly, and often. She shows how each one of us can become a "change maker" by leading with imagination. "Ideas are rarely the problem," writes Comstock. "What holds all of us back, really" is fear. It's the attachment to the old, to "What We Know." As Comstock makes clear, transforming the mindset and culture of a company is messy. There is no easy checklist. It is fraught with uncertainty, tension and too often failure. It calls for the courage to defy convention, go around corporate gatekeepers when necessary, and reinvent what is possible. For all those looking to spearhead change in their companies and careers, and reinvent "the way things are done," *Imagine It Forward* masterfully points the way.

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the "devil-may-care" attitude and the "killer instinct" of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the "Spider Web Doctrine" — discipline, self-reliance, ruthlessness — to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

The world of work is changing at an unprecedented rate leaving many organisations struggling to cope. At a time when constant innovation, agility, and speed often mean the difference between success and failure, we can no longer afford to waste time navigating the complex bureaucracy present in most companies. The #1 New York Times bestselling author Keith Ferrazzi argues that in times like these the ability to lead without authority is the essential workplace competency. *Leading Without Authority* reveals the secret to getting those around you to collaborate and cooperate to reach their full potential, whatever your title. The answer involves a shift in mindset that Ferrazzi calls co-elevation - working to elevate those around us. And you don't have to have formal authority, or direct reports, to utilize the co-elevation process. In fact, you can take initial steps forward without the other person even being aware of your efforts. Drawing on a decade of research and over thirty years helping CEOs and senior leaders drive innovation and build high-performing teams Ferrazzi reveals how we can all transform our business and our relationships with the people around us. The result is a new roadmap for thriving amid the disruptive pressures afflicting every industry.

A forefront productivity expert argues that longer working hours do not compensate for flawed approaches to performance, outlining strategic techniques for establishing positive habits, mindset-based strategies and proactive processes for enabling more effective working hours.
