NEW YORK TIMES BESTSELLERAMAZON BEST BOOK OF THE YEAR Unlikely pig owners Steve and Derek got a whole lot more than they bargained for when the designer micro piglet they adopted turned out to be a full-sized 600-pound sow! This funny, inspirational story shows how families really do come in all shapes and sizes. In the summer of 2012, Steve Jenkins was contacted by an old friend about adopting a micro piglet. Though he knew his partner Derek wouldn't be enthusiastic, he agreed to take the adorable little pig anyway, thinking he could care for her himself. Little did he know, that decision would change his and Derek's lives forever. It turned out there was nothing "micro" about Esther, and Steve and Derek had actually signed on to raise a full-sized commercial pig. Within three years, Tiny Esther grew to a whopping 600 pounds. After some real growing pains and a lot of pig-sized messes, it became clear that Esther needed much more space, so Steve and Derek made another life-changing decision: they bought a farm and opened the Happily Ever Esther Farm Sanctuary, where they could care for Esther and other animals in need. Funny, heartwarming, and utterly charming, ESTHER THE WONDER PIG follows Steve and Derek's adventure--from reluctant pig parents to farm-owning

This book provides an overview, the goal of which is to help the general public navigate their way through various skin care options before committing to a medical or surgical procedure that could be expensive, irreversible and possibly dangerous. (Estheticians, please give this little book a quick read and pass it along to your clients, your friends, their friends, etc. Let's get the word out that Estheticians Are a Girl's Best Friend!) Women in particular are bombarded with ads advising them to nip, tuck, lift, tighten, slim, change and fix. In other words, we are urged to alter who we are and how we look. But no matter what any manufacturer, salesperson, or the media tries to tell you (or sell you), there is no anti-aging miracle product that will work for every woman. We all have personal variables which determine how well our skin will age such as genetics, environmental exposure, lifestyle choices, hormones and health issues. And even within those parameters, much depends upon how the skin is maintained throughout one's life.

COSMETOLOGISTS ARE TRAINED TO MAINTAIN and care for hair, skin, and nails. Most are hair stylists, estheticians, nail technicians, or makeup artists. This is a very broad industry that offers numerous opportunities to specialize in very specific kinds of work. For example, a trained hair stylist might work only with wigs and hairpieces, or a makeup artist might work in live theater or for a local TV station. Most specializations are based on personal preference and experience, but some such as microderm abrasion or master coloring, require advanced training. There are more than 600,000 of these professionals working in the US. That number is expected to rise faster than the average for the foreseeable future. The demand for licensed cosmetologists is greatest in hair salons and barber shops, nail salons, and day spas. There are also many jobs being created in resort

hotels and department stores, on cruise ships and film and television sets, and backstage at fashion shows and magazine photo shoots. There are even traveling cosmetologists who bring their services to people in their own homes, assisted living facilities, hospitals, or small towns that do not have a salon. If you are creative, good with people, and willing to keep learning more about your craft, this could be the right career choice for you. Cosmetology is a rock-solid profession that thrives even through economic downturns. Women and men always want to feel good about the way they look - almost more than anything else.
