Photographing newborns is a uniquely special experience and capturing the beauty of a newborn baby requires specific skills. In this practical book, Melanie East, one of the UK's leading newborn photographers, shares her secrets, from preparing for the newborn session through to post-production work. Advice is given on posing newborn babies using tried and tested techniques, while emphasizing the baby's safety at all times. Also Melanie gives clear instruction on choosing and using equipment near babies. Supported by her inspiring images, it is invaluable reading for photographers new to the genre, as well as professionals wishing to hone their skills. Contents: Advice on posing newborn babies using tried and tested techniques, while emphasizing the baby's safety at all times; Clear instruction on choosing and using equipment near babies; Tips on lighting, textures and tones, and using props to create interest in the newborn portrait; Ideas for taking beautiful and enchanting images that parents will adore. This practical book will be of special interest to family and portrait photographers and is beautifully illustrated with 153 colour photographs.

Learn to master the art of maternity and newborn photography Maternity and newborn photography is an exciting new photographic specialty with a growing market. In this book by professional photographer and Canon Explorer of Light Sandy Puc, you will find both information and inspiration. This book covers technical aspects such as equipment, lighting techniques, and composition, but also examines the human side of the equation: how to make moms comfortable during the shoot, tips on photographing newborns, suggestions for props and poses for children under a year of age, and much more. Additionally, it will include business strategies for photographers who are looking to expand into this burgeoning market. Addresses what photographers need to know to venture into this popular specialty Provides technical information about equipment, lighting, composition, camera settings, and printing Explains how to make expectant mothers feel comfortable and attractive during the shoot, how to work with newborns, techniques for posing children younger than a year, tips on using props, and more Illustrated with dozens of the author's maternity and newborn portraits Bellies and Babies: The Art of Maternity and Newborn Photography offers photographers both the information and ideas they need to successfully photograph expectant mothers and newborns.

Calling all mamarazzis! Every camera-toting mom will want this guide! Moms, if you can't seem to take enough great photos of the children in your life, this is the book for you. Now you can learn how to photograph children with the style, clarity, color, and beauty you see in professional photographs. Moms are one of the fastest-growing segments of the camera-toting demographic, and the blogosphere has a term for them, mamarazzis Mixes information, inspiration, and fun for women who want to take better photographs of the children in their lives Explains how to set up a camera and use the controls on basic compacts up to advanced dSLR cameras Covers shot composition, determining settings, exposing images correctly, the essentials of printing images, how to process for clear and bright color, and more Includes stunning examples of portraits and candids of children Become a better mamarazzi with this fun and informative guide!

Three Books in One: Newborn Portrait Posing Guide & Lighting Diagrams: A Complete Guide to Newborn Portrait Photography Posing and Lighting Getting Newborn Portrait Clients & Keeping Them: A guide to getting clients for your newborn portrait business. Pricing Packages For Profit: The easy guide to pricing your portrait studio products for maximum profit. These books are for beginner's in the field of photography. They are not meant for professional portrait photographers.

Designed to address the challenges of posing two subjects together, this visual sourcebook offers creative, evocative poses for a variety of two-subject groupings, including romantic couples, business partners, friends, and siblings. Through the inclusion of contemporary images from some of the world's most accomplished photographers, shutterbugs will learn how to finesse poses to show the relationship between the subjects in the portrait. Grouped according to how much of the subject is included in the frame—from head-and-shoulder shots to full-length portraits—this manual is organized to teach compositional skills and how to direct the eye to points of focus within an image. An indispensable handbook for beginning, intermediate, or professional photographers, this book provides inspiration along with a plethora of images for igniting a creative spark.

After airing on the "Today Show" in September 2009, the photographers portraits of sleeping babies caused a national sensation. Here, their lens has captured newborns as they inhabit magical dreamscapes.
