"Editing your own writing can feel like doing your own brain surgery.?"After you've completed your manuscript and you're standing at the foot of Revision Mountain, climbing to the summit can feel impossible. It's hard to look at your own writing with the objective eye needed to shape it into a tight, polished, publishable story-but just like writing, self-editing is a skill you can learn.Developmental editor Tiffany Yates Martin has spent her career in the publishing industry honing practical, actionable techniques to help authors evaluate how well their story is working, where it might not be, and how to fix it.With a clear, accessible, user-friendly approach, she leads writers through every step of deepening and elevating their own work, as well as how to approach the edit and develop their "editor brain," and how to solicit and process feedback. Intuitive Editing doesn't offer one-size-fits-all advice or rigid writing "rules"; instead it helps authors discover what works for their story and their style-to find the best version of their vision. Whether you're writing fiction, narrative nonfiction, or memoir; whether this your first story or your fiftieth, Intuitive Editing will give you the tools you need to edit and revise your own writing with inspiration, motivation, and confidence. Tiffany Yates Martin has spent nearly thirty years as an editor in the publishing industry, working with major publishers and bestselling authors as well as newer writers. She's led workshops and seminars for conferences and writers' groups across the country and is a frequent contributor to writers' sites and publications. The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

The hidden brain is the voice in our ear when we make the most important decisions in our lives—but we're never aware of it. The hidden brain decides whom we fall in love with and whom we hate. It tells us to vote for the white candidate and convict the dark-skinned defendant, to hire the thin woman but pay her less than the man doing the same job. It can direct us to safety when disaster strikes and move us to extraordinary acts of altruism. But it can also be manipulated to turn an ordinary person into a suicide terrorist or a group of bystanders into a mob. In a series of compulsively readable narratives, Shankar Vedantam journeys through the latest discoveries in neuroscience, psychology, and behavioral science to uncover the darkest corner of our minds and its decisive impact on the choices we make as individuals and as a society. Filled with fascinating characters, dramatic storytelling, and cutting-edge science, this is an engrossing exploration of the secrets our brains keep from us—and how they are revealed.

Learn to craft smart, original scripts and teleplays for a variety of television formats, including comedy, animation, drama, movies of the week, pilots, reality television, TV news magazine, and children's programming. Using the tools the author provides: checklists, sample outlines and treatments for each format, sample script pages, war stories from writers and executives, and a sample query letter to introduce finished script pages to agents, you'll avoid common pitfalls and come across as an industry veteran. Benefit from the experience of pros: 45 luminaries contribute their experience and wisdom, including Jay Leno, Mike Wallace, Norman Lear, Paul Haggis, writers for "Grey's Anatomy," "Desperate Housewives," and more! With twenty-five years of industry experience as a television writer and producer, Martie Cook teaches you not only how to hone your craft but also how to break into the industry. Guiding you through the often confusing television hierarchy, Write to TV offers practical advice on important issues such as how to get an agent, how to write a query letter, how to network, even how to "do lunch". By learning how to craft smart scripts for a variety of television formats and how to get your foot in the door and keep it there, this invaluable book will help you get that big idea out of your head, onto the page, and then to the top of the heap. Learn how to craft smart scripts for a variety of television formats and break into the business through: \* Examples: In addition to examples of common pitfalls, book includes sample outlines for various formats. \* Industry wisdom: Benefit from the advice of an experienced writer. But you don't have to take her word for it--the book is filled with advice, stories, and examples from people currently working in the TV industry. \* Practical advice: Business section offers practical advice on important issues like getting an agent, how to write a query letter, and how to network your way into a job.

The activist and TED speaker Megan Phelps-Roper reveals her life growing up in the most hated family in America At the age of five, Megan Phelps-Roper began protesting homosexuality and other alleged vices alongside fellow members of the Westboro Baptist Church in Topeka, Kansas. Founded by her grandfather and consisting almost entirely of her extended family, the tiny group would gain worldwide notoriety for its pickets at military funerals and celebrations of death and tragedy. As Phelps-Roper grew up, she saw that church members were close companions and accomplished debaters, applying the logic of predestination and the language of the King James Bible to everyday life with aplomb—which, as the church's Twitter spokeswoman, she learned to do with great skill. Soon, however, dialogue on Twitter caused her to begin doubting the church's leaders and message: If humans were sinful and fallible, how could the church itself be so confident about its beliefs? As she digitally jostled with critics, she started to wonder if sometimes they had a point—and then she began exchanging messages with a man who would help change her life. A gripping memoir of escaping extremism and falling in love, Unfollow relates Phelps-Roper's moral awakening, her departure from the church, and how she exchanged the absolutes she grew up with for new forms of warmth and community. Rich with suspense and thoughtful reflection, Phelps-Roper's life story exposes the dangers of black-and-white thinking and the need for true humility in a time of angry polarization.
