The approach used on a given spend item should largely depend on the balance between supply power and demand power. That is the logic behind the bestselling Purchasing Chessboard®, used by hundreds of corporations worldwide to reduce costs and increase value with suppliers. The 64 squares in the Purchasing Chessboard provide a rich reservoir of methods that can be applied either individually or combined. And because many of these methods are not customarily used by procurement, the Purchasing Chessboard is also the perfect tool for helping buyers to think and act outside the box and find new solutions. concept that works across all industries and all categories in any given situation, it is little wonder that business leaders and procurement professionals alike are excited by, and enjoy strategizing around, the Purchasing Chessboard. This second edition of The Purchasing Chessboard addresses the new realities of a highly volatile economic environment and describes the many—sometimes surprising—ways in which the Purchasing Chessboard is being used in today's business world. Yet despite all of the great achievements of procurement executives and their teams, they do not always receive the recognition they deserve. In response, the authors have developed and outlined within the book an unequivocal approach to measure procurement ' s impact on a company ' s performance—Return on Supply Management Assets (ROSMA®).

For anyone seeking to live life to its fullest potential, Blind Ambition is an eye-opening account of a tech industry star executive who overcame fear and hopelessness to turn his disadvantage of blindness into a powerful competitive strength. While most people were preparing for the adventure of adult life, Chad E. Foster was watching the world he grew up with fade to black. But that didn ' t stop him from becoming the first blind person to graduate from the Harvard Business School leadership program and climbing the corporate ladder as a successful Finance/Sales executive. With determination, ambition, and drive, Chad created what Oracle said would be impossible. He gave millions of people the ability to earn a living by becoming the first to create customer relationship software for the visually impaired. In these pages, readers will: Be inspired by Chad ' s story of how he transformed the loss of his vision into a gift that provided him with unique strengths and abilities he did not have when he could see. See how we choose the stories we tell ourselves about our circumstances and how this either limits us or propels us towards our goals.
