Pacemaker Health is a straightforward, comprehensive program that makes key health concepts accessible to all your students. Designed for use in a variety of classroom settings, this completely revised program contains updated content covering essential health issues for today's student, including nutrition and exercise, hygiene and disease prevention, safety, body systems and reproduction, mental and emotional health, substance abuse, family living and relationships, communication, maturity and sexuality, and community health. Lexile Level 800 Reading Level 3-4 Interest Level 6-12

The new full-color second edition of Pacemaker(R) World Literature is organized by theme. These classic and contemporary short stories, fables, poems, and autobiographies open students' eyes to a wide world of heroes, challenges, good deeds, friendships, families, and more. Lexile Level 620 Reading Level 3-4 Interest Level 6-12

This comprehensive full-year program introduces students to the basic concepts and principles of biology and builds the fundamental science skills students of all ability levels need to succeed. Pacemaker Biology integrates technology, everyday applications, careers, and modern leaders into biology. Lexile Level 760 Reading Level 3-4 Interest Level 6-12

Pacing and ICDs are used increasingly in the management of arrhythmias and a number of different cardiac conditions. Specialists, general cardiologists and general physicians are now closely involved in managing patients with these devices. Implantable Cardiac Pacemakers and Defibrillators: All you want to know is written by leading specialists from the UK and USA and is designed for all physicians looking for a clear and comprehensive introduction to the principles and functions of these devices. The focus of this book has been on the indications for these devices and continuing patient management for the generalist and those in training – including complications and troubleshooting that arise peri- and post-implantation. Not only does Implantable Cardiac Pacemakers and Defibrillators provide a sound introduction to the subject, in the later chapters it goes beyond the basics, introducing more advanced techniques such as lead extraction. It can be used both for those in training and for those with direct patient care responsibilities. With its up to date, evidence-based approach and inclusion of the latest AHA guidelines on pacing, this is an ideal guide to an important aspect of modern cardiac management.

This revised textbook program helps students of all abilities see the relevance of world history in their lives with stories of the world's people, from the earliest times to the present. The manageable, single-concept approach and multi-faceted support helps students successfully meet curriculum requirements. Pacemaker® World History provides engaging features like History in Your Life, You Decide, and History Fact presented in accessible language to help all students learn about world history. Sections like Learn More About It, Great Names in History, Words from the Past, and Reading Strategies give students the support they need to build a solid foundation in world history. Lexile Level 760 Reading Level 3-4 Interest Level 6-12

Perfect for exam prep, training across CIED devices, and as a reference to keep on hand in the lab. Real-world examples of managing a specific device-related issue. Includes straightforward clinical management issues to more complex issues that may be related to a specific device algorithm.

Covers the functions of federal, state, and local government This program introduces students to the intricacies of the federal, state, and local governments, and their rights and responsibilities as U.S. citizens. The single-concept approach makes content accessible for all students as they make the important connection between the relevance of American government and their own lives, and learn how to become responsible citizens of the 21st century. The manageable content and support helps students successfully meet curriculum requirements. Lexile Level 800 Reading Level 3-4 Interest Level 6-12

Provide a strong foundation for future math learning Algebra 1 is for students and young adults who need extra help grasping new algebraic concepts. This full-color text teaches the key elements of algebra in a step-by-step approach, and helps prepare all students for high school exit exams and state testing. Lexile Level 650 Reading Level 3-4 Interest Level 6-12

An essential companion for both the aspiring and practising electrophysiologist, The EHRA Book of Pacemaker, ICD and CRT Troubleshooting assists device specialists in tackling both common and unusual situations that they may encounter during daily practice. Taking a case-based approach, it examines pacemakers, implantable cardioverter defibrillators and cardiac resynchronisation therapy. Much more than just a technical manual of device algorithms, the cases help readers to consolidate their technical knowledge, and improve their reasoning and observation skills so they are able to tackle device troubleshooting with confidence. The 70 cases are arranged in three sections by increasing levels of difficulty to walk readers through all the skills and knowledge they need in an easy to use and structured format. Each case contains a short clinical description and a device tracing followed by a multiple choice question. Answers are supplied with detailed annotations of the tracing and an in-depth discussion of the case, highlighting practical hints and tips as well as providing an overview of the technical function of devices. A useful summary of principal device features and functions is also included. The EHRA Book of Pacemaker, ICD and CRT Troubleshooting is the perfect companion for electrophysiologists, cardiology trainees and technical consultants working with device patients as well as for those studying for the EHRA accreditation exam in cardiac pacing.

The purpose of this book is to make your journey to algebra a success. This journey will be comfortable and interesting. You will build new skills based on what you know already. You will make connections between arithmetic and important skills in algebra. As you work through and review more topics in arithmetic, your skills in algebra will also grow. - Note to the student.
