term cure, Chris began a worldwide quest to conquer the plague of unhappiness blanketing the Millennial generation. On the way, Chris interviewed hundreds of psychologists, swamis, millionaires, monks, and Millennials from thirty-one different countries, devouring decades of positive psychology research as he went. Eager to share his discoveries, Chris walks readers through the essentials of building a happy life: Discerning the difference between true happiness vs. fleeting pleasures; Tailoring your environment for optimum performance through improved sleeping habits and exercise goals; Optimizing focus and gray matter through meditation and mindfulness. With wit, humor, and charm, Chris artfully captures the struggle of Millennials nationwide while crafting intelligent, actionable, and science-backed solutions. A must-read for any young person, or anyone trying to make their way in the world, *The Millennial's Guide to Making Happiness, Volume I*, puts a humorous, personal, and scientific spin on the pursuit of happiness.

After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend , and her soul makes a first step to healing.

This comprehensive resource provides readers with the tools necessary to perform analysis of various waveforms for use in radar systems. It provides information

about how to produce synthetic aperture (SAR) images by giving a tomographic formulation and implementation for SAR imaging. Tracking filter fundamentals, and each parameter associated with the filter and how each affects tracking performance are also presented. Various radar cross section measurement techniques are covered, along with waveform selection analysis through the study of the ambiguity function for each particular waveform from simple linear frequency modulation (LFM) waveforms to more complicated coded waveforms. The text includes the Python tool suite, which allows the reader to analyze and predict radar performance for various scenarios and applications. Also provided are MATLAB® scripts corresponding to the Python tools. The software includes a user-friendly graphical user interface (GUI) that provides visualizations of the concepts being covered. Users have full access to both the Python and MATLAB source code to modify for their application. With examples using the tool suite are given at the end of each chapter, this text gives readers a clear understanding of how important target scattering is in areas of target detection, target tracking, pulse integration, and target discrimination.

in this pocket-sized encyclopedia. This cat-alogue packs a whole lot of information into your pocket! Along with a photo of each breed, discover the facts and stats of each cat, including its size, where the breed originated, colors and markings, and unusual features or behaviors. You'll soon be able to tell apart a Burmese from a Siamese; a rex from a sphynx and a manx; and an American shorthair from a British shorthair. You will also discover a lot about colors and patterns. Did you know that tabby cats and tortoiseshells are not breeds, but colors within breeds? Plus there are pages introducing cat anatomy and behavior; and the book finishes with fun facts. The style of the Pocket Eyewitness series is perfect for all children, from reluctant readers who can easily digest the key points through to budding vets and cat-lovers who want to know more about the best pets on the planet. Cats with facts: what more could anyone want?

Rip Van Goofy was a friendly fellow who lived in a sleepy town. He was always chatting with his friends and loved to go fishing. But when his friends were busy one sunny afternoon, Rip Van Goofy set out alone to fish at his favorite fishing hole. Then, with his line in the water, Goofy fell asleep...and woke up forty years later! Don't miss this retelling of the classic tale of Rip Van Winkle—with a Disney twist!
