Peyami Safa has 72 books on Goodreads with 37162 ratings. Peyami Safa ' s most popular book is Dokuzuncu Hariciye Ko ü u.

After 1945 it was not just Europe ' s parliamentary buildings that promised to house democracy: hotels in Turkey and Dutch shopping malls proposed new democratic attitudes and feelings. Housing programs in the United Kingdom, the United States, and the Soviet Union were designed with the aim of creating new social relations among citizens and thus better, more equal societies. Architecture, Democracy, and Emotions focuses on these competing promises of consumer democracy, welfare democracy, and socialist democracy. Spanning from Turkey across Eastern and Western Europe to the United States, the chapters investigate the emotional politics of housing and representation during the height of the Cold War, as well as its aftermath post-1989. The book assembles detailed research on how the claims and aspirations of being "democratic" influenced the affects of architecture, and how these claims politicized space. Architecture, Democracy, and Emotions contributes to the study of Europe ' s "democratic age" beyond Cold War divisions without diminishing political differences. The combination of an emotional history of democracy with an architectural history of emotions distinguishes the book ' s approach from other recent investigations into the interconnection of mind, body, and space.

Turkish republicanism is commonly thought to have originated with Mustafa Kemal Atat ü rk and the founding of modern Turkey in 1923, and understood exclusively in terms of Kemalist ideals, characterized by the principles of secularism, nationalism, statism, and populism. Banu Turnao lu challenges this view, showing how Turkish republicanism represents the outcome of centuries of intellectual dispute in Turkey over Islamic and liberal conceptions of republicanism, culminating in the victory of Kemalism in the republic's formative period. Drawing on a wealth of rare archival material, Turnao lu presents the first complete history of republican thinking in Turkey from the birth of the Ottoman state to the founding of the modern republic. She shows how the Kemalists wrote Turkish history from their own perspective, presenting their own version of republicanism as inevitable while disregarding the contributions of competing visions. Turnao lu demonstrates how republicanism has roots outside the Western political experience, broadening our understanding of intellectual history. She reveals how the current crises in Turkish politics—including the Kurdish Question, democratic instability, the rise of radical Islam, and right-wing Turkish nationalism—arise from intellectual tensions left unresolved by Kemalist ideology. A breathtaking work of scholarship, The Formation of Turkish Republicanism offers a strikingly new narrative of the evolution and shaping of modern Turkey.

The essays in this book are the first scholarly attempt to examine the complex interrelation of social change and political radicalization during the 1960s. In analyzing topics ranging from the 1968 student uprising, working class politics and trade unionism, Anti-Americanism, right-wing and left-wing militant action, communitarian violence, state coercion, and the artistic representation of these phenomena the contributors offer insights to help to answer why the experiences of this decade turned so radical with lasting polarizing effects on contemporary Turkish society today. Even though issues surrounding the topic are at the very center of intellectual and political debates in today s Turkey, such as the collective remembrance of the Turkish " 68ers " and of the anti-communist state persecution and prosecution after the military intervention in 1980, a cohesive analysis of this era is still strikingly absent in scholarly works. Thus, " Turkey in Turmoil " is unique in many regards. As important as the presented diversity in research perspectives, the volume will also showcase multiple and, at some point, contesting and even provocative perspectives on the subject at hand.

Becoming Turkish deepens our understanding of the modernist nation-building processes in post—Ottoman Turkey through a rare perspective that stresses social and cultural dimensions and everyday negotiations of the Kemalist reforms. Yilmaz asks how the reforms were mediated on the ground and how ordinary citizens received, reacted to, and experineed them. She traces the experiences of the subaltern as well as the experiences of the elites and the mediators in the overall narrative—highlighting the relevance of class, gender, location, and urban and rural differences while also revealing the importance of nonideological, social, and psychological factors such as childhood and generations.

An international study of cultural relationships with built environments.

The present book is a bold attempt at revealing the complex and diversified nature of the field of translated literature in Turkey during a period of radical socio-political change. On the broad level, it investigates the implications of the political transformation experienced in Turkey after the proclamation of the Republic for the cultural and literary fields, including the field of translated literature. On a more specific level, it holds translation under focus and explores the discourse formed on translation and translators while it also traces the norms (not) observed by translators throughout the 1920s-1950s in two case studies. The findings of the study suggest that the concepts of translation both affected and were affected by cultural processes in the society, including ideological and poetological ones and that there was no uniform way of defining or carrying out translations during the period under study. The findings also point at the segmentation of readership in early republican Turkey and conclude that the political and poetological factors governing the production and reception of translations varied for different segments of readers.
