So you think you've got a handle on therapeutic management? How drugs work and interact with each other, how the body handles them and how drug treatments are assessed? This self-assessment volume allows you to learn, revise and test yourself on all aspects of clinical pharmacology and therapeutics. Four different question types are provided to test your knowledge in this important area - multiple choice questions, extended matching questions, 'best of fives' and problem-solving questions. Detailed explanatory answers ensure this book solves your queries as well as providing essential revision for those all-important exams. Test your knowledge with Clinical Pharmacology and Therapeutics: Questions for Self Assessment and not only develop your exam technique but become a better prescriber.

A comprehensive learning tool to aid preparation for undergraduate pharmacology examinations, this study guide focuses on reinforcing core concepts, improving technique and developing confidence in answering the style of questions used in the examination. Its aim is to provide an aid to learning and self-assessment for undergraduates in medicine and other health professionals about to find work as independent prescribers. The importance of ensuring patient safety and the quality of patient care is becoming more important nationally and internationally, after a period when it was perhaps somewhat neglected in some academic centres. Though this study guide is not a substitute for a comprehensive text on the subject, it will be a useful aid for revision. There is no current single best answer book available to final year medical students to help them prepare for their final exams. A strong understanding of clinical pharmacology and therapeutics is an essential foundation necessary in the development of a medical career and this book highlights core concepts through a systematic approach, giving students the confidence they need to answer pertinent questions.
