MODERN ROME: 4 GREAT WALKS FOR THE CURIOUS TRAVELER, an alternative guidebook, is the latest in the Curious Traveler Series by acclaimed travel writers Dianne Bennett and William Graebner. Designed for the tens of thousands of visitors who have seen Rome's major attractions or seek an off-the-beaten path experience, it features over 60 color photos, 4 detailed maps, and entertaining and informative commentary. Following the success of **ROME THE SECOND TIME: 15 ITINERARIES THAT DON'T GO TO THE COLISEUM**, Bennett and Graebner offer 4 new Rome walks, all outside the city's tourist core, all easily accessible by Metro or tram, and all in neighborhoods where Romans live and work.

GARBATELLA: GARDEN CITY SUBURB is a guided tour through one of the city's most engaging and mysterious planned communities, a 1920s creation featuring curving streets, enchanting stairways, interior courtyards, and some of the most unusual public housing ever built. **EUR: MID-CENTURY SPECTACLE** features a dramatic locale, now a center of Rome's business community, but planned and constructed in monumental style to celebrate the 20th anniversary of the 1922 Fascist March on Rome. On the opposite side of the city, a walk through Flaminio introduces Rome's sensational 21st-century, starchitect-designed cultural centers, and, across the Tiber, the suggestive site of the 1960 Olympic Games, the Foro Italico, a virtual Mussolini theme park built by the Duce in the 1930s. A fourth, stairways walk begins in Trastevere's back yard, winding up, down, and around Rome's 8th hill, the Gianicolo,

traversing a 17th-century villa, a compelling 1941 monument to the Italian unification movement, and one of the smallest and most charming temples in all of Italy. Bennett and Graebner provide more tantalizing tours, information, and Book Updates on their blog at www.romethesecondtime.com. Pack your bags. Bring your curiosity.

Vespa ist für Motorroller längst so eine Art Gattungsbegriff geworden wie Tempo für Papiertaschentücher. Die Vespa - in all ihren vielen Versionen - war und ist günstiges Transportmittel, war und ist ein flottes Zeitgeistmobil und hat schon früh Kultstatus erlangt. Seit 70 Jahren wird diese italienische Ikone nun schon gebaut, und Millionen hatten und haben ihre Freude an den agilen, schicken und sympathischen Rollern. Dieser Band zeigt alle Vespas aus sieben Jahrzehnten, vom Urtyp namens "Paperino" bis zu den aktuellen Sprint-, Primavera- und GTS-Modellen. Da dürfen natürlich die legendären Ape-Dreiräder nicht fehlen, und auch die Mofas und Mopeds wie die legendäre Ciao, die übrigen Piaggio-Roller wie der erste große namens Hexagon und der außergewöhnliche MP5 mit seinen beiden neigbaren Vorderrädern kommen zu Ehren.

Highlighting the major economic and industrial changes in the lubrication industry since the first edition, *Synthetics, Mineral Oils, and Bio-Based Lubricants: Chemistry and Technology*, Third Edition highlights the major economic and industrial changes in the lubrication industry and outlines the state of the art in each major lubricant application area. Chapters cover the use of lubricant fluids, growth or decline of market areas and applications, potential new applications, production capacities, and regulatory issues, including biodegradability, toxicity, and food

production equipment lubrication. The highly-anticipated third edition features new and updated chapters including those on automatic and continuously variable transmission fluids, fluids for food-grade applications, oil-soluble polyalkylene glycols, functional bio-based lubricant base stocks, farnesene-derived polyolefins, estolides, bio-based lubricants from soybean oil, and trends in construction equipment lubrication. Features include: Contains an index of terms, acronyms, and analytical testing methods. Presents the latest conventions for describing upgraded mineral oil base fluids. Considers all the major lubrication areas: engine oils, industrial lubricants, food-grade applications, greases, and space-age applications. Includes individual chapters on lubricant applications—such as environmentally friendly, disk drive, and magnetizable fluids—for major market areas around the globe. In a single, unique volume, Synthetics, Mineral Oils, and Bio-Based Lubricants: Chemistry and Technology, Third Edition offers property and performance information of fluids, theoretical and practical background to their current applications, and strong indicators for global market trends that will influence the industry for years to come.

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and

their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own – from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

Designed for the tourist seeking a fresh, authentic, Roman experience, this intimate, stimulating guide explores Rome's splendid modern architecture, its bustling close-in neighborhoods, and its rivers, magnificent fountains, and aqueducts. Itineraries take the reader to Fascist and occupied Rome of World War II, the nearby Alban Hills, and the Eternal City's lesser-known green spaces. Innovative chapters feature cultural and artistic Rome, including art galleries, jazz clubs, film locations, and rooftop bars--even places that offer a sumptuous (and free) "vernissage" of wine and hors d'oeuvres. With Bill and Dianne as guides--their voices part of the experience--the curious traveler will discover a housing project built under Mussolini; ascend a little-known holy Roman road on the city's outskirts; spend an evening in the out-of-the-way, artsy neighborhood of Pigneto; enjoy a trattoria where only Italians eat; and, among the book's many informative, creative "sidebars," find in one the troubling story of Rome's Jewish community, and in another locate sites in "Angels & Demons." 16 maps, 70 photos, an index, and detailed directions and instructions (including websites) make this "new" Rome

easily accessible. For the frugally-minded, at times adventurous (at times armchair) traveler. Foreword by Rome Mayor Walter Veltroni.

Offers state-of-the-art information on all the major synthetic fluids, describing established products as well as highly promising experimental fluids with commercial potential. This second edition contains chapters on polyinternalolefins, polymer esters, refrigeration lubes, polyphenyl ethers, highly refined mineral oils, automotive gear oils and industrial gear oils. The book also assesses automotive, industrial, aerospace, environmental, and commercial trends in Europe, Asia, South America, and the US.
