Plan of Attack is a 2004 book by the American author and investigative reporter Bob Woodward. It was promoted as "a behind-the-scenes account of how and why President Bush decided to go to war against Iraq". The book's chief contention, which provides the rationale for its title, is that President Bush planned from early in his presidency to remove Saddam Hussein from power by force, rather than making any serious effort to use diplomacy or other means. The book describes White House deliberatio

~~Plan of Attack - Wikipedia~~

With PLAN OF ATTACK he brings his investigative skills to bear on the administration of George W. Bush, and the build-up to war in Iraq. What emerges is a fascinating and intimate portrait of the leading powers in Bush's war council and their allies overseas as they prepare their pre-emptive attack and change the course of history.

Award-winning journalist Bob Woodward has spent over thirty years in Washington's corridors of power. In *All the President's Men* it was he, together with Carl Bernstein, who exposed the Watergate scandal and he has been giving us a privileged front-row seat to White-House intrigue and decision-making ever since. With *PLAN OF ATTACK* he brings his investigative skills to bear on the administration of George W. Bush, and the build-up to war in Iraq. What emerges is a fascinating and intimate portrait of the leading powers in Bush's war council and their allies overseas as they prepare their pre-emptive attack and change the course of history.

Plan of Attack is the definitive account of how and why President George W. Bush, his war council, and allies launched a preemptive attack to topple Saddam Hussein and occupy Iraq. Bob Woodward's latest landmark account of Washington decision making provides an original, authoritative narrative of behind-the-scenes maneuvering over two years, examining the causes and consequences of the most controversial war since Vietnam. Based on interviews with 75 key participants and more than three and a half hours of exclusive interviews with President Bush, Plan of Attack is part presidential history charting the decisions made during 16 critical months; part military history revealing precise details and the evolution of the Top Secret war planning under the restricted codeword Polo Step; and part a harrowing spy story as the CIA dispatches a covert paramilitary team into northern Iraq six months before the start of the war. This team recruited 87 Iraqi spies designated with the cryptonym *DB/ROCKSTARS*, one of whom turned over the personnel files of all 6,000 men in Saddam Hussein's personal security organization. What emerges are astonishingly intimate portraits: President Bush in war cabinet meetings in the White House Situation Room and the Oval Office, and in private conversation; Dick Cheney, the focused and driven vice president; Colin Powell, the conflicted and cautious secretary of state; Donald Rumsfeld, the controlling war technocrat; George Tenet, the activist CIA director; Tommy Franks, the profane and demanding general; Condoleezza Rice, the ever-present referee and national security adviser; Karl Rove, the hands-on political strategist; other key members of the White House staff and congressional leadership; and foreign leaders ranging from British Prime Minister Blair to Russian President Putin. Plan of Attack provides new details on the intelligence assessments of Iraq's alleged weapons of mass destruction and the planning for the war's aftermath.

Award-winning journalist Bob Woodward has spent over thirty years in Washington's corridors of power. In *All the President's Men* it was he, together with Carl Bernstein, who exposed the Watergate scandal and he has been giving us a privileged front-row seat to White-House intrigue and decision-making ever since. With *PLAN OF ATTACK* he brings his investigative skills to bear on the administration of George W. Bush, and the build-up to war in Iraq. What emerges is a fascinating and intimate portrait of the leading powers in Bush's war council and their allies overseas as they prepare their pre-emptive attack and change the course of history.

In his unmissable new book Bob Woodward takes the reader on an inside journey from the start of the Iraq War in 2003 right up to the present day, providing a detailed, authoritative account of President Bush's leadership and the struggles among the men and women in the White House, the Pentagon, the CIA and the State Department. With Bush well into his second term, Woodward breaks new ground, as he has in his thirteen previous international bestsellers, including *BUSH AT WAR* and *PLAN OF ATTACK*. Woodward puts the Bush legacy in historical context as he shows this presidency in action in a way that is normally seen only years after a chief executive leaves office. He describes how Bush and his team have attempted to change the way that wars are fought, and put together a re-election campaign while re-inventing their strategy for the invasion and occupation of Iraq over and over again. Here is the behind-the-scenes story of this administration -- meetings, conversations, and memos; conflicts, manoeuvring, and anguish -- as key administration figures provide a full view of the first presidency of the twenty-first century.

With his unmatched investigative skill, Bob Woodward tells the behind-the-scenes story of how President George W. Bush and his top national security advisers, after the initial shock of the September 11 attacks, led the nation to war. Extensive quotations from the secret deliberations of the National Security Council -- and firsthand revelations of the private thoughts, concerns and fears of the president and his war cabinet -- make *Bush at War* an unprecedented chronicle of a modern presidency in time of grave crisis. Based on interviews with more than a hundred sources and four hours of exclusive interviews with the president, *Bush at War* reveals Bush's sweeping, almost grandiose, vision for remaking the world. "I'm not a textbook player, I'm a gut player," the president said. Woodward's virtual wiretap into the White House Situation Room reveals a stunning group portrait of an untested president and his advisers, three of whom might themselves have made it to the presidency. Vice President Dick Cheney, taciturn but hard-line, always pressing for more urgency in Afghanistan and toward Iraq. Secretary of State Colin Powell, the cautious diplomat and loyal soldier, tasked with building an international coalition in an administration prone to unilateralism. Defense Secretary Donald Rumsfeld, the brainy agitator and media star who led the military through Afghanistan and, he hopes, through Iraq. National security adviser Condoleezza Rice, the ever-present troubleshooter who surprisingly emerges as perhaps the president's most important adviser. *Bush at War* includes a vivid portrait of CIA director George Tenet, ready and eager for covert action against terrorists in Afghanistan and worldwide. It follows a CIA paramilitary team leader on a covert mission inside Afghanistan to pay off assets and buy friends with millions in U.S. currency carried in giant suitcases. In *Bush at War*, Bob Woodward once again delivers a reporting tour de force.

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as #1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness

## Access Free Plan Of Attack Bob Woodward

accounts of what really happened. *Peril* is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. *Peril* is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with *Fear and Rage*. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.

In his fourth book on President George W. Bush and his controversial 'War on Terror,' Bob Woodward takes us behind closed doors, into the hidden rooms of the White House, the Pentagon, the State Department, and US intelligence agencies, where the details of the wars in Iraq and Afghanistan were fiercely debated and eventually determined. Today, the Iraq War is a major source of contention around the world, and may become the defining political, social and moral issue of this brief period in American history. In an attempt to understand the Bush presidency, and its divisive legacy, Woodward examines this conflict at its source: in Washington D.C. This fast-paced, groundbreaking book includes never-before-published information, as Woodward draws upon his vast experience as a veteran political journalist to provide a richly detailed and meticulously researched examination of the war in Iraq over the past two years. In *The War Within*, Woodward expands upon his study of the Bush administration in his previous three books, with his signature authoritative, measured, and deeply human sense of perspective.

It is impossible to examine any part of the war on terrorism in the twenty-first century without seeing the hand of Dick Cheney, Colin Powell or one of their loyalists. *The Commanders*, an account of the use of the military in the first Bush administration, is in many respects their story -- the intimate account of the tensions, disagreements and debates on the road to war.

Shows President Obama making the critical decisions on the Afghanistan War, the secret war in Pakistan, and the worldwide fight against terrorism.

Based on 18 months of reporting, Woodward's 17th book is an intimate, documented examination of how President Obama and the highest profile Republican and Democratic leaders in the United States Congress attempted to restore the American economy and improve the federal government's fiscal condition over three and one half years. Drawn from memos, contemporaneous meeting notes, emails and in-depth interviews with the central players, *THE PRICE OF POLITICS* addresses the key issue of the presidential and congressional campaigns: the condition of the American economy and how and why we got there. Providing verbatim, day-by-day, even hour-by-hour accounts, the book shows what really happened, what drove the debates, negotiations and struggles that define, and will continue to define, the American future.
