“Tells how America, since the end of World War II, has turned away from its ideals and goodness to become a match setting the world on fire” (Seymour Hersh, investigative journalist and national security correspondent). World War II marked the apogee of industrialized “total war.” Great powers savaged one

another. Hostilities engulfed the globe. Mobilization extended to virtually every sector of every nation. Air war, including the terror bombing of civilians, emerged as a central strategy of the victorious Anglo-American powers. The devastation was catastrophic almost everywhere, with the notable exception of the United States, which exited the strife unmatched in power and influence. The death toll of fighting forces plus civilians worldwide was staggering. The Violent American Century addresses the US-led transformations in war conduct and

strategizing that followed 1945—beginning with brutal localized hostilities, proxy wars, and the nuclear terror of the Cold War, and ending with the asymmetrical conflicts of the present day. The military playbook now meshes brute force with a focus on non-state terrorism, counterinsurgency, clandestine operations, a vast web of overseas American military bases, and—most touted of all—a revolutionary new era of computerized “precision” warfare. In contrast to World War II, postwar death and destruction has been comparatively small. By any

Other measure, it has been appalling—and shows no sign of abating. The author, recipient of a Pulitzer Prize and a National Book Award, draws heavily on hard data and internal US planning and pronouncements in this concise analysis of war and terror in our time. In doing so, he places US policy and practice firmly within the broader context of global mayhem, havoc, and slaughter since World War II—always with bottom-line attentiveness to the human costs of this legacy of unceasing violence. “Dower delivers a convincing blow to publisher Henry Luce’s benign ‘American Century’

Though the Serbian pack has been brought to heel thanks to the downfall of their Alpha, the war is far from over. Desdemona, a witch of unfathomable power, has escaped the wolves' wrath, but she will not go quietly into the night. She takes refuge in a place where even the smallest sliver of light does not dare to enter. Though she had to flee, she has not given up on the treasure she wishes to acquire. Her depravity knows no bounds; she's even willing to search for the one who can assist her in opening a Veil that has not

been opened in millennia – with good reason: the danger is incalculable. Meanwhile, there are major changes rippling through the Romanian Grey wolves. Decebel has become Alpha to the Serbian pack in an effort to begin to unite the Canis lupis species. Their numbers are dwindling in the wake of the shortage of true mates and lack of offspring. The wolves are beginning to lose faith and darkness seems to be crashing in on them from all sides. But the winds of change are blowing, changes that will alter the future of not only the Canis lupis, but of another ancient race as well. Amidst

all of this, Sally is continuing to come to terms with her relationship with the playful, charming, flirty, unbelievably handsome bartender – who happens to be a member of the Romanian pack. If all that weren't enough, the Fates have decided to pay a little visit to Jen. It's time to collect. She cheated the Fates of a life, her life. Now they want what they are due. The problem? It's more than Jen is willing to pay. Yes, the war is indeed far from over. Bargains will be struck, declarations will be made, sacrifices will be given, love will be tested, and

Historian John W. Dower's celebrated investigations into modern Japanese history, World War II, and U.S.–Japanese relations have earned him critical accolades and numerous honors, including the Pulitzer Prize, the National Book Award, and the Bancroft Prize. Now Dower returns to the major themes of his groundbreaking work, examining American and Japanese perceptions of key moments in their shared history. Both provocative and probing, *Ways of*

framework for the consideration of the relationship between modern social anthropology and linguistics, this volume covers topics such as classification, symbolism, and structuralism. The relevance of the works of Saussure, Lévi-Strauss and Chomsky is considered. There are two case-studies: the first outlines a 'social history' of the succession of pidgins that are documented on the West African coast, ending with Pidgin English. The second analyzes the status of three language varieties used in a 'trilingual' community in the Carnian Alps. Originally
