by small organizations, responsibilities of a central computer service, computer approach philosophy, and computer acceptance. The manuscript is a vital source of data for computer science experts and researchers interested in the digital computer.

Read Book Plus One Computer Application

The awareness of environment protection is a great achievement of humans; an expression of self-awareness. Even though the idea of living while protecting the environment is not new, it has never been so widely and deeply practiced by any nations in history like it is today. From the late 90s in the last century, the surprisingly
