He's made sure of that - he's a fastidious little feline! "A treasureable work of non-fiction...a picture book of unusual muted elegance."

Professor Astro Cat's Frontiers of Space : Walliman ...

'Professor Astro Cat's Solar System' is based on the best-selling book, 'Professor Astro Cat's Frontiers of Space by illustrator Ben Newman and quantum physicist Dr Dominic Walliman. This app was created by Minilab Studios in partnership with our sister company, Flying Eye Books, the award-winning children's book publisher.

?Astro Cat's Solar System on the App Store

Professor Astro Cat and his team then seek to answer all manner of questions about the human body and how it works from your cells to your ears to your heart to genetics. The book also looks at some quite complex bodily functions- the lymphatic system, the endocrine system, the immune system and genetics.

Professor Astro Cat: the expert in just about anything. In this book, he's showing off everything he knows about space.

Professor Astro Cat explains everything he knows about the solar system and outer space, including the Big Bang, manned missions to the Moon, and the night sky throughout the months of the year.

Professor Astro Cat explains everything he knows about the solar system and outer space, including the Big Bang, manned missions to the Moon, and the night sky throughout the months of the year.

Young readers (and cats!) discover the wonders our solar systems as they travel to each of the planets in turn!

Professor Astro Cat is back to explain the world of physics!

In this companion activity book to the hit series, Astro Cat will help you think and speak like an astronaut!

The latest Professor Astro Cat adventure is perfect for curious young scientists who want to learn more about the ins and outs of the human body! Are our ears supposed to be a weird shape? Why do we sneeze? What is the point in having skin? The human body is one of the most complicated things in the Universe. Join Professor Astro Cat and the whole gang as they journey through all the wondrous parts of the human body, with the help of writer Dominic Walliman himself! From head to toe and everywhere in-between, there's nothing left out of this fascinating human body odyssey!

Welcome back, stargazers! Have you ever looked up at the night sky and wondered what a star looks like up close? Ever thought about how long it would take to walk a light-year? Join Professor Astro Cat and his friends on another stellar mission! In this new addition to the bestselling science series, we learn all about the stars in our universe, including our own sun! From scientific discoveries to the constellations dreamed up by humans centuries ago, Ben Newman's beloved illustrations bring these fascinating facts to life for young readers. A fun way for budding astronomers to learn about the stars in the sky.

Introducing the latest book in the Professor Astro Cat series of compelling science books for kids, now for younger readers! Greetings, fellow space travelers! Have you ever wondered how a rocket works? Do you dream of becoming an astronaut? Then come along as we find out all the exciting ways we can reach space. Professor Astro Cat's latest adventure leads young readers through the wonders of space travel. Easy-to-understand facts and descriptions introduce rockets, spaceships, satellites and the space station. Get ready for blastoff!

Where did all the water on our planet come from? How deep is the ocean? What exactly is a fish? Find out all of this and more in the newest Professor Astro Cat adventure! Despite covering over 70% of the Earth's surface, the ocean is still roughly 95% unexplored. Join Professor Astro Cat and the gang as they take a deep dive from the sea shore all the way to the darkest depths of the ocean floor to find out more about this mysterious watery world. From coral reefs to deep-sea vents, there's so much to discover on this Deep-sea Voyage.
