"This book is of the kind you always wanted but didn't think would or could ever exist: the universal field theory of problem solving." Tom Sommerlatte Typically today's tasks in management and consulting include project management, running workshops and strategic work - all complex activities, which require a multitude of skills and competencies. This standard work, which is also well accepted amongst consultants, gives you a reference or cookbook-style access to the most important tools, including a rating of each tool in terms of applicability, ease of use and effectiveness. In this considerably enlarged third edition, Nicolai Andler presents 152 of such tools, grouped into task-specific categories: Definition of a Situation/Problem - Information Gathering - Creativity - Information Consolidation - Goal Setting - Strategic, Technical and Organisational Analysis - Evaluation and Decision Making - Project
