Buyers and sellers engaging in the cross-border sale of goods are well-advised to be conversant with the United Nations Convention on Contracts for the International Sale of Goods (CISG), which governs international sales contracts. The CISG has been ratified by 89 states, which together account for over three-quarters of all world trade. This practically-oriented, article-by-article commentary on the CISG will be useful to legal practitioners, counsel and arbitrators dealing with international sales contracts. The in-depth annotations deal extensively with the legal issues likely to arise under each CISG article. The annotations include up-to-date analyses of state court and arbitral decisions, the legal doctrines derived from these decisions, and relevant scholarship to date. Among the issues and topics discussed are the following: interface with national laws; scope of application; obligations of seller and buyer; non-conforming goods and duty to notify; breach of contract and remedies; damages; force majeure exemption; and termination of contract and its consequences. This book is an updated translation of the second German edition of a valued resource in Germany, Switzerland, and Austria, and an authority regularly cited by the Swiss Supreme Court. The commentary is influenced by legal authorities from both civil law and common law backgrounds. Throughout, the contributors refer to the cisg-online.ch database, enabling users to locate decisions easily. User-friendly, focused on practical questions, concise but comprehensive, this article-by-article commentary provides a quick and trenchant overview of existing legal opinions and court/arbitral decisions. It will prove immensely valuable to legal practitioners, facilitating their formulation of reliable solutions to legal problems involving the CISG.

The Routledge Handbook of Contemporary Italy provides a comprehensive account of Italy and Italian politics in the 21st Century. Featuring contributions from many leading scholars in the field, this Handbook is comprised of 28 chapters which are organized to deliver unparalleled analysis of Italian society, politics and culture. A wide range of topics are covered, including: Politics and economy, and their impact on Italian society Parties and new politics Regionalism and migrations Public memories Continuities and transformations in contemporary Italian society. This is an essential reference work for scholars and students of Italian and Western European society, politics, and history.

The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term ' critical ' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become ' naturalized ' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Pregol is easy to use! For this exciting new edition, we listened to our many adopters and made significant revisions to adapt Pregol to the changing needs of your students. Every aspect of this program is based on the strong foundation of vocabulary and grammar presentations unique to Prego along with communicative activities and expanded cultural material to help students develop language proficiency. As a result, the program is even stronger, offering a truly integrated approach to presenting culture that inspires students to develop their communication skills. All print and media supplements for the program are completely integrated in CENTRO, our comprehensive digital platform that brings together all the online and media resources of the Prego! program. These include the Quia online versions of the workbook and laboratory manual, the video program, the music playlist, and new interactive games. Instructors will also find an easy-to-use grade book, an instructor dashboard, and a class roster system that facilitates course management and helps reduce administrative workload.

A Handbook to the Reception of Greek Drama offers a series of original essays that represent a comprehensive overview of the global reception of ancient Greek tragedies and comedies from antiquity to the present day. Represents the first volume to offer a complete overview of the reception of ancient drama from antiquity to the present Covers the translation, transmission, performance, production, and adaptation of Greek tragedy from the time the plays were first created in ancient Athens through the 21st century Features overviews of the history of the reception of Greek drama in most countries of the world Includes chapters covering the reception of Greek drama in modern opera and film

Proposing a new, dynamic conception of citizenship, this book argues against understandings of citizenship as a collection of rights that can be either possessed or endowed, and demonstrates it is an emergent condition that has temporal and spatial dimensions. Furthermore, citizenship is shown to be continually and contingently reconstituted through the struggles between those considered insiders and outsiders. Significantly, these struggles do not result in a clear division between citizens and non-citizens, but in a multiplicity of states that are at once included within and excluded from the political community. These liminal states of citizenship are elaborated in relation to three specific forms of non-citizenship: the ' respectable illegal, the ' intimate foreigner ' and the ' abject citizen ' . Each of these modalities of citizenship corresponds to either the figure of the clandestino/a or the nomad as invoked in the 2008 Italian Security Package and a second set of laws, commonly referred to as the ' Nomad Emergency Decree ' . Exploring how this legislation affected and was negotiated by individuals and groups who were constituted as ' objects of security ' , author Kate Hepworth focuses on the first-hand experience of individuals deemed threats to the nation. Situated within the field of human geography, the book draws on literature from citizenship studies, critical security studies and migration studies to show how processes of securitisation and irregularisation work to delimit between citizens and non-citizens, as well as between legitimate and illegitimate outsiders.

This Oxford Handbook provides a fresh overall view and interpretation of the modern economic growth of one of the largest European countries, whose economic history is less known internationally than that of other comparably large and successful economies. It will provide, for the first time, a comprehensive, quantitative "new economic history" of Italy. The handbook offers an interpretation of the main successes and failures of the Italian economy at a macro level, the research--conducted by a large international team of scholars --contains entirely new quantitative results and interpretations, spanning the entire 150-year period since the unification of Italy, on a large number of issues. By providing a comprehensive view of the successes and failures of Italian firms, workers, and policy makers in responding to the challenges of the international business cycle, the book crucially shapes relevant questions on the reasons for the current unsatisfactory response of the Italian economy to the ongoing "second globalization." Most chapters of the handbook are co-authored by both an Italian and a foreign scholar.

This book constitutes the thoroughly refereed post-conference proceedings of the Third International Workshop on Higher Education Learning Methodologies and Technologies Online, HELMeTO 2021, held in Pisa, Italy, in September 2021. Due to the COVID-19 pandemic the conference was held online. The 26 revised full papers and 3 short papers presented were carefully reviewed and selected from a total of 65 submissions. The papers present recent research on challenges of implementing emerging technology solution for online, online learning pedagogical frameworks, facing COVID19 emergency in higher education teaching and learning, online learning technologies in practice, online learning strategies and resources, etc.

Female characters assumed increasing prominence in the narratives of nineteenth- and early twentieth-century opera. And for contemporary audiences, many of these characters--and the celebrated women who played them--still define opera at its finest and most searingly affective, even if storylines leave them swooning and faded by the end of the drama. The presence and representation of women in opera has been addressed in a range of recent studies that offer valuable insights into the operatic stage as cultural space, focusing a critical lens at the text and the position and signification of female characters. Moving that lens onto the historical, *The Arts of the Prima Donna in the Long Nineteenth Century* sheds light on the singers who created and inhabited these roles, the flesh-and-blood women who embodied these fabled "doomed women" onstage before an audience. Editors Rachel Cowgill and Hilary Poriss lead a cast of renowned contributors in an impressive display of current approaches to the lives, careers, and performances of female opera singers. Essential theoretical perspectives reflect several broad themes woven through the volume--cultures of celebrity surrounding the female singer; the emergence of the quasi-mythical figure of the diva; explorations of the intricate and sundry arts associated with the prima donna, and with her representation in other media; and the diversity and complexity of contemporary responses to her. The prima donna influenced compositional practices, determined musical and dramatic interpretation, and affected management decisions about the running of the opera house, content of the season, and employment of other artists--a clear demonstration that her position as "first woman" extended well beyond the boards of the operatic stage itself. *The Arts of the Prima Donna in the Long Nineteenth Century* is an important addition to the collections of students and researchers in opera studies, nineteenth-century music, performance and gender/sexuality studies, and cultural studies, as well as to the shelves of opera singers and enthusiasts.
