relatively ordinary people are,
more and more, defined by their
maddest edges.

"I didn't know how to deal with
the poisonous and toxic people in
my life or why they behaved the
way they did, so I went looking for

an answer. This book is what I found." Bestselling author David Gillespie turns his attention to a phenomenon that damages businesses, seeds mental disease and discomfort and can bring civilisations to the brink of implosion - the psychopath.

Online Library Psychopath Expanded Edition

Psychopaths are often thought of as killers and criminals, but actually five to ten per cent of people are probably psychopathic without ever indulging in a single criminal act. These everyday psychopaths may be charming in the early stages of relationships

or employment but, Gillespie argues, their presence in your life is at best disruptive, and at worst highly dangerous: they will leave you feeling cheated and humiliated, dominating and manipulating you to the point where you question your sanity.

Online Library Psychopath Expanded Edition

Worse, he cautions, at a societal level their tendency to gravitate towards positions of power can be disastrous. Taming Toxic People is a practical guide to restraining that difficult person in your life, be it your boss, your spouse or a parent. But it is also a serious and

Online Library Psychopath Expanded Edition

if we value a free and well-

Almost a Psychopath, Ronald

you have encountered an Almost Psychopath, they offer practical tools to help you: recognize the behavior, attitudes, and characteristics of the Almost Psychopath; make sense of interactions you've had with Almost Psychopaths; devise

strategies for dealing with them in the present; make informed decisions about your next steps; and learn ways to help an Almost Psychopath get better control of their behavior. The Almost Effect Series presents books written by Harvard Medical School faculty

and other experts that offer guidance on common behavioral and physical problems falling in the spectrum between normal health and a full-blown medical condition. These are the first publications to help general readers recognize and address

Online Library Psychopath Expanded Edition

these problems.

What do Scott Peterson, Neil Entwistle and timeless literary seducers epitomized by Don Juan and Casanova have in common? They are charismatic, glib and seductive men who also embody

Online Library Psychopath Expanded Edition

the most dangerous human qualities: a breathtaking callousness, shallowness of emotion and the incapacity to love. In other words, these men are psychopaths. Unfortunately, most psychopaths don't advertise themselves as heartless social

Online Library Psychopath Expanded Edition

predators. They come across as charming, intelligent, romantic and kind. Through their believable "mask of sanity," they lure many of us into their dangerous nets. Dangerous Liaisons explains clearly what psychopaths are, why they act the way they do,

Online Library Psychopath Expanded Edition

how they attract us and whom they tend to target. Above all, this book helps victims find the strength to end their toxic relationships with psychopaths and move on, stronger and wiser, with the rest of their lives.
