SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2018 from AECOM gives costs for both general and civil engineering works and highway works. It provides a full breakdown of labour, plant and material elements, with labour rates updated. cost guidance is given at a number of levels, varying from the more general functional costs to detailed unit costs, and in conformity with CESMM4 and the Highways Method of Measurement. This 32nd edition incorporates a general update of prices in consultation with leading manufacturers, suppliers and specialist contractors -- especially in line with changes in the labour force and devaluation of the pound: Adjustments to the scope, range and detail of information help the user adjust unit costs with reference to allocated resources and outputs Resource costing in Part 4 is supplemented by the further advice on output factors in Part 10. Rail rates have been heavily revised, as the rail sector is currently overstretched. Man hours methodology has been generally used instead of gang rates, clarifying labour costs and output Use the access code inside the front cover of the book to get set up with a VitalSource® ebook of this 2018 edition. This versatile and powerful online data viewing package is available for use until the end of December 2018. In a time when it is essential to gain 'competitive advantage' in a sometimes turbulent market, this price book provides instant-access cost information and forms a one-stop reference. ... along with the standard features you have come to expect from SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates, outputs, man hour constants for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs for incidental advice: tables and formulae, technical information, professional advice updates, free of charge, two or three times a year -- see inside for registration details. Updates are available online at www.pricebooks.co.uk

Tender prices performed strongly again in 2016, with a provisional rate increase of 10.3% versus a year earlier. SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2017 from AECOM gives costs for both general and civil engineering works and highway works. It provides a full breakdown of labour, plant and material elements, with labour rates updated. It is an essential component of infrastructure estimating maturity, benchmarking and cost intelligence, and gives sound guidance for estimators, contractors and clients. This 31st edition incorporates a comprehensive review throughout: Plant and materials have increased, though not as significantly as labour rates. Some item descriptions have been revised to reflect prices in the global market. And in detail: A revised structure for manhole construction to show detailed build-up. New prices for pre-cast manholes with monolithic precast concrete bases. Updated rail supply and installation rates and a few more added items. Revised piling rates and descriptions. Highway pipe rates adjusted to reflect current market specifications and materials. Revised steel works prices to reflect deflation in this sector. Use the access code inside the front cover of the book to get set up with internet access to this edition until the end of December 2017. We now provide a VitalSource® ebook, giving a versatile and powerful online data viewing package. In a time when it is essential to gain 'competitive advantage' in a congested market, this price book provides instant-access cost information and forms a one-stop reference. ... along with the standard features you have come to expect from SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates, outputs, man hour constants for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs for incidental advice: tables and formulae, technical information, professional advice updated, free of charge, two or three times a year -- see inside for registration details. Updates are available online at www.pricebooks.co.uk

Infrastructure work is still declining, although there are plans to release £1.3bn worth of road network schemes over the next few years. Network rail has published plans to spend £38bn on upgrade works over the next five years. Water firms are to bring forward \$400m of work into this financial year. Spon's Civil Engineering and Highway Works Price Book 2015 from AECOM gives costs for both general and civil engineering works and highway works, and provides a full breakdown of labour, plant and material elements, with labour rates updated in line with the latest CJC wage agreement. Beyond prices, it can be used as a comprehensive work manual for the UK ' s civil engineering, surveying and construction business. Use the access code inside the front cover of the book to get set up with internet access to this edition until the end of December 2015. We now provide SPON ' S Online, a versatile and powerful online data viewing package, which replaces the estimating software and ebook of recent years. This 29th edition incorporates a comprehensive review throughout: Updated to come into line with the CESSM4 structure as well as MMHW And with an expanded range of rail elements

Output in infrastructure is forecast to rise by 6.6% in 2013 & 7.6% in 2014, driven by Highways Agency's capital budget funding, by rail and by electricity Spon's Civil Engineering and Highway Works Price Book 2014 gives costs for both general and civil engineering works and highway works, and provides a full breakdown of labour, plant and mate

Spon's Civil Engineering and Highway Works Price Book 2009 is more than just a price book. It provides a comprehensive work manual that many in the civil engineering, surveying and construction business will find it hard to work without. It gives costs for both general and civil engineering works and highway works, and shows a full breakdown of lab

Ensure value for money in future infrastructure projects, while surviving the current deep recessionSPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2013 is more than just a price book. It provides a comprehensive work manual for the UK ' s civil engineering, surveying and construction business. It gives costs for both general and civil engineer

SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2019 from AECOM gives costs for both general and civil engineering works and highway works. It provides a full breakdown of labour, plant and material elements, with labour rates updated. cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing, and in conformity with CESMM4 and the Highways Method of Measurement. In this 33rd edition: More emphasis has been given to sampling from major projects -- of £20- £100m in value with no acute access or ground condition problems and run under NEC contracts. The rates, prices and outputs in the Resources and Unit Cost calculations include allowances for wastage, normal productivity and efficiency. Plus prices from specialists More research with contractors and suppliers allows for a more confident forecast in a volatile market -- but outliers have been largely excluded. Prices are based more strongly on global structural steel grades and rates and extrapolated accordingly. Pipe lining is now included, as being more effective and economical than replacement of pipes in maintenance drainage works. Consideration is given to the possible scarcity of skilled labour. Use the access code inside the front cover of the book to get set up with an ebook of this 2019 edition on the VitalSource® Bookshelf platform. This versatile and powerful online data viewing package is available for use until the end of December 2019. ... along with the standard features you have come to expect from SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates, outputs, man hour constants for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs for incidental advice: tables and formulae, technical information, professional advice updates, free of charge, two or three times a year -- see inside for registration details. Updates are available online at www.pricebooks.co.uk

Captures real material, plant and labour costs from the UK ' s major live rail, civils and highways projects. SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2021 from AECOM gives a full breakdown of labour, plant and material elements, with labour rates updated. Cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing; and in conformity with CESMM4 and the Highways Method of Measurement, and updated to the CJC wage agreement. This 35th edition gives more items on shafts, tunnelling, drainage and water proofing -- covering some brand new materials and methods. Notes have been added to tunnelling, viaducts, D-walls and piling under the output section. The book partially reflects costs and new ways of working resulting from the Covid-19 pandemic.
