The Borg Warner 4462 transfer box on the P38 unlike the classic  
has no direct control of High/Low range gears meaning that the  
vehicle has to nearly stop before shifting from high to low range and  
the lever from the classic model was replaced by an electric control  
on the dashboard for the manual and an H-pattern gate on the  
automatic gear lever High/Low is selected by an electronic actuator  
on the TB. The transfer case's chain and sprockets have been  
reinforced.

From 1980 to 2000, Camel Trophy took more than 500 amateur competitors from 35 countries on extraordinary and challenging adventures. On most of these events, teams drove specially prepared Land Rovers to the limit and beyond in locations as varied as Borneo, Mongolia, Papua New Guinea and Tanzania. Camel Trophy charts the history of the event and tells the incredible stories resulting from the constant challenge to both man and machine.. As one of the official photographers on the last four events, author Nick Dimbleby ' s first-hand account, the shared experiences of competitors, along with contemporary reports and extensive new interviews of key event leaders, all combine to make Camel Trophy a gripping tale of adventure, adversity, technological change and logistical challenge. Illustrated with a stunning collection of photographs including never-before-published, behind-the-scenes shots, this meticulously researched publication can legitimately claim to be the definitive history of the Camel Trophy.
