There's something in the earth deep below  
Elise Kavanagh's territory. A shadow is  
falling upon local demons to devour their  
flesh and harvest their souls. And it's

coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer-plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

- A lost starship... A dire warning from futures past... A desperate search for salvation...  
-----

- Captain Mitchell "Ares" Williams is a Space Marine and the hero of the Battle for Liberty, whose Shot Heard 'Round the Universe saved the planet from a nearly unstoppable war machine. He's handsome, charismatic, and the perfect poster boy to help the military drive enlistment. Pulled from the war and thrown into the spotlight, he's as efficient at charming the media and bedding beautiful celebrities as he was at shooting down enemy starfighters. After an assassination attempt leaves Mitchell critically wounded, he begins

to suffer from strange hallucinations that carry a chilling and oddly familiar warning: They are coming. Find the Goliath or humankind will be destroyed. Convinced that the visions are a side-effect of his injuries, he tries to ignore them, only to learn that he may not be as crazy as he thinks. The enemy is real and closer than he imagined, and they'll do whatever it takes to prevent him from rediscovering the centuries lost starship. Narrowly escaping capture, out of time and out of air, Mitchell lands at the mercy of the Riggers - a ragtag crew of former commandos who patrol the lawless outer reaches of the galaxy. Guided by a captain with a reputation for cold-blooded murder, they're dangerous, immoral, and possibly insane. They may also be humanity's last hope for survival in a war that has raged beyond eternity.

that affect their design, production and sale. A couple of chapters will focus on all the requirements that plastics need to meet for medical device applications. The subsequent chapters describe the various types of plastic materials, their properties profiles, the advantages and disadvantages for medical device applications, the techniques by which their properties can be enhanced, and real-world examples of their use. Comparative tables will allow readers to find the right classes of materials suitable for their applications or new product development needs.

Fall to Pieces is a beautifully written, visceral, roller coaster ride inside bipolar disorder, rock 'n' roll, celebrity culture, and the world of modeling. Mary Forsberg Weiland, ex-wife of the late Scott Weiland, front man for Stone Temple Pilots and Velvet Revolver, tells a harrowing true story of depression, drug addiction, and mental illness with candor and, often, humor. written with veteran journalist Larkin Warren, *Fall to Pieces* is a blistering, eye-opening memoir of Hollywood meltdown in the bestselling vein of Tatum O'Neal's *A Paper Life* and Valerie Bertinelli's *Losing It*.

In *The One*, the sixth book in the *Alien Species Intervention #6609* series, almost a hundred years have passed since Armageddon. The Earth is ready for habitation but it is a far different Earth from the one last seen so long ago. Alongside the original wildlife and generations of their offspring, new plants and forms of wildlife from different worlds populate the planet as chosen by the Womb. The survivors discover they have not aged a day since the bombs dropped, but any new relationship that is forged stagnates when the chance to bear children is denied them. Every human now realizes their sole purpose is to support the animals and must fight to eke out a role in the new ecosystem that has put them at the bottom of the food chain. As a new civilization develops above ground, the new natural order thrusts women into positions of power. Will the softer of the species spell success for what is left of the human race? Or are the mistakes of the past doomed to be repeated? *Alien Species Intervention #6609*, is an alien apocalyptic saga spanning 200 years from the Prohibition to the distant future. It encompasses tender love between divergent species, political downfalls and acts of unspeakable violence.
