Felicitas Rebold has a haunting secret, but before she can tell her best friend, she mysteriously disappears. Unnerved by her disappearance her small town unites and searches for their missing teen. During the investigation, a peculiar Nocturnal Journal is discovered, hidden in her bedroom. The journal reveals cryptic messages along with detailed encounters with an enticing nighttime visitor. A week later Felicitas is found roaming the woods confused and unaware as to where she has spent the past seven days. With the help of her estranged grandmother, Felicitas finds the answers to the secrets shrouding her missing week and traces her roots back ten generations and makes a startling discovery that someone very close to her is not who they seem.

One year after her successful trip across Glacier National Park with Howard Eaton, chronicled in Through Glacier Park, mystery novelist Mary Roberts Rinehart was back in the saddle, heading into the rugged Western portion of the park with her family and ready for more adventure. Rinehart's humor and enthusiasm about her camping adventure through the Rocky Mountains and Cascades are still fresh for a modern audience.

So when their service broke down in Star Sector Twelve, it created a very dangerous situation. When Calhoun took his med ship out of overdrive near the sector's planet Weald, he was vaguely aware of the risks. But the crisis came home to him with a crash the moment he radioed in for landing coordinates. ""Contamination! Full Mobilization! Red Alert! Death to Blueskins!"" Such were the nature of his greetings. And it began to look like a case of the cosmic jitters that only the most drastic of orbital surgery could cure.

The famous scientific trio of Arcot, Wade and Morey, challenged by the most ruthless aliens in all the universes, blasted off on an intergalactic search for defences against the invaders of Earth and all her allies. World after world was visited, secret after secret unleashed, and turned to mighty weapons of intense force—and still the Thessian enemy seemed to grow in power and ferocity. Mighty battles between huge space armadas were but skirmishes in the galactic war, as the invincible aliens savagely advanced and the Earth team hurled bolt after bolt of pure ravening energy—until it appeared that the universe itself might end in one final flare of furious torrential power...
