In this comprehensive, practical, and gripping assessment of various forms of violence against women, Pamela Cooper-White challenges the Christian churches to examine their own responses to the cry of Tamar in our time. She describes specific forms of such violence and outlines appropriate pastoral responses. The second edition of this groundbreaking work is thoroughly updated and examines not only where the church has made progress since 1995 but also where women remain at unchanged or even greater risk of violence.

With national conversation turned toward sexual assault on college campuses, knowing how to identify, prevent, and address these incidents in a safe, and productive way is essential for administrators and faculty. Uprooting Sexual Violence in Higher Education provides colleges and universities with a foundational understanding of twelve risk factors related to sexual assault, stalking, and intimate partner violence. By presenting a blend of theory, research, and the personal reflections of professionals ‘ on the front lines, ’ this book provides insights into the motivations, attitudes, and behaviors behind sexual assault on campus, as well as strategies for mitigating these risk factors in an effort to tailor prevention efforts. Whether you are seeking a way to navigate the recent regulations on sexual violence from the federal government or merely wish to safeguard the welfare of students on your campus, this book will provide the necessary, and invaluable foundation you need to empower, respect, and support all students.

Michelle Kaminsky provides an inside account of the legal dilemmas battered women face in the criminal justice system.

"Stunning . . . This is an immensely courageous story that will break your heart, leave you in tears, and, finally, offer hope and redemption. Brava, Kelly Sundberg." —Rene Denfeld, author of *The Child Finder* In this brave and beautiful memoir, written with the raw honesty and devastating openness of *The Glass Castle* and *The Liar ' s Club*, a woman chronicles how her marriage devolved from a love story into a shocking tale of abuse—examining the tenderness and violence entwined in the relationship, why she endured years of physical and emotional pain, and how she eventually broke free. "You made me hit you in the face," he said mournfully. "Now everyone is going to know." "I know," I said. "I ' m sorry." Kelly Sundberg ' s husband, Caleb, was a funny, warm, supportive man and a wonderful father to their little boy Reed. He was also vengeful and violent. But Sundberg did not know that when she fell in love, and for years told herself he would get better. It took a decade for her to ultimately accept that the partnership she desired could not work with such a broken man. In her remarkable book, she offers an intimate record of the joys and terrors that accompanied her long, difficult awakening, and presents a haunting, heartbreaking glimpse into why women remain too long in dangerous relationships. To understand herself and her violent marriage, Sundberg looks to her childhood in Salmon, a small, isolated mountain community known as the most redneck town in Idaho. Like her marriage, Salmon is a place of deep contradictions, where Mormon ranchers and hippie back-to-landers live side-by-side; a place of

magical beauty riven by secret brutality; a place that takes pride in its individualism and rugged self-sufficiency, yet is beholden to church and communal standards at all costs. Mesmerizing and poetic, *Goodbye, Sweet Girl* is a harrowing, cautionary, and ultimately redemptive tale that brilliantly illuminates one woman's transformation as she gradually rejects the painful reality of her violent life at the hands of the man who is supposed to cherish her, begins to accept responsibility for herself, and learns to believe that she deserves better.

Stronger Than My Struggles is proud to present *Reflections of A Survivor*, co-authored by C. Imani Williams, Arlene R. Major, Melony Hill, Amanda Harrinath, Alexander Sing and Ciara Lovelace. What is a survivor? The dictionary says it's a person who continues to function or prosper in spite of opposition, hardship, or setbacks. That's exactly what you will find inside this anthology. Alexander Sing was born with Mohr-Majewski Syndrome and Oral-Facial-Digital Syndrome II. With "In the Spotlight," Alex shares with us his story of receiving a personal message from J.K. Rowling after writing an essay on the similarities and differences between himself and Harry Potter. Legally blind, Amanda Harrinath lives with vision impairment, hydrocephalus, intellectual disabilities, and autism. She and her fiancée, Alexander Sing, joined together to write an essay on a situation that threatened to tear their relationship apart. While many of us worry about normal day to day problems in our relationships, it's eye-opening to take a peek inside the relationship of two disabled people struggling to find normalcy. "Depressed from Normalcy" will tear at your heart strings. Melony Hill, Founder of Stronger Than My Struggles, is a rape, molestation, domestic violence and long-term abuse survivor. Diagnosed with multiple emotional disabilities in 2010, Melony strives to continue to show people that they are not defined by their struggles. Melony shares multiple essays of reflection on topics from abusive relationships, self worth, mental illness and more. C. Imani Williams admits that years after her parents death, which caused an extreme family rift, she is still battling emotional instability. Imani shares a heartbreaking story of family betrayal that played out through the court system. It's sad what money can do to a family. Ciara Lovelace was just a happy 6-year-old girl playing like children do when she fell into a coma suddenly. After weeks of tests and medicine to try to revive her and figure out exactly what had happened, Ciara was released from the hospital. The once playful, fun-loving girl who fell into the coma, was not the one who left the hospital. She could no longer run and play, no longer walk on her own, now bound to a wheelchair or forced to use a walking device, Ciara shares her story of determination. Arlene R. Major is a survivor of domestic violence. History has a way of repeating itself, For Arlene, the story that kept replaying was one of abuse, disrespect and pain. She escaped one abusive relationship to only end up in another. How would she and her children escape? Each contributor hopes that through their struggles and stories of finding themselves through the darkness, they can inspire, empower and help others see the light at the end of the tunnel through their own dark times.

"Cheryl Albers' reader for use in family sociology courses is a cutting edge collection of articles about cutting edge topics. She addresses nine topics central and critical to family sociology and provided thoughtful articles from diverse perspectives for each, from adolescent childbearing to the construction of family policy. This volume of readings is where the students are. It could enrich any instructor's approach to the burning questions in the field of family sociology." Dana Vannoy, University of Cincinnati

Violence against women and children is a serious public health concern, with costs at multiple levels of society. Although violence is a threat to everyone, women and children are particularly susceptible to victimization because they often have fewer rights or lack appropriate means of protection. In some societies certain types of violence are deemed socially or legally acceptable, thereby contributing further to the risk to women and children. In the past decade research has documented the growing magnitude of such violence, but gaps in the data still remain. Victims of violence of any type fear stigmatization or societal condemnation and thus often hesitate to report crimes. The issue is compounded by the fact that for women and children the perpetrators are often people they know and because some countries lack laws or regulations protecting victims. Some of the data that have been collected suggest that rates of violence against women range from 15 to 71 percent in some countries and that rates of violence against children top 80 percent. These data demonstrate that violence poses a high burden on global health and that violence against women and children is common and universal. *Preventing Violence Against Women and Children* focuses on these elements of the cycle as they relate to interrupting this transmission of violence. Intervention strategies include preventing violence before it starts as well as preventing recurrence, preventing adverse effects (such as trauma or the consequences of trauma), and preventing the spread of violence to the next generation or social level. Successful strategies consider the context of the violence, such as family, school, community, national, or regional settings, in order to determine the best programs.

In this report, Amnesty International shows some of the ways in which conflict affects women, and the many different roles which women play in conflict. Women are not only victims (rape, refugees) and survivors, but also activists, negotiators, peace-builders and human rights defenders.
