Regal Raptor Cruiser 350: Featuring a conventional old-school design, the Cruiser 350 is the company's entry-level motorcycle for the Indian market. Upfront is a single-chrome finished headlamp,...

“More people recognize the importance of Allyship—and that’s great. Unfortunately, many men still don’t know what they need to do to effect change so everyone feels valued and empowered at work. In Showing Up, Ray Arata provides clear guidance on how to turn good intentions into action. I strongly recommend it to everyone interested in helping create a more equal and productive workplace.” —Sheryl Sandberg, COO of Facebook and founder of LeanIn.Org and OptionB.Org Showing Up is a revolutionary step-by-step guide—by and for men—to end toxic masculinity and enact heart-based leadership, increase diversity, bolster the bottom line, and create a workplace culture where everyone wins. The Time’s Up, Me Too, and Black Lives Matter movements have sounded a wake-up—especially for men. Organizations worldwide now realize the critical importance of diversity, equity, and inclusion (DEI) for underrepresented people. It’s abundantly clear: the default model of masculinity isn’t working for anyone. But for a new and healthier infrastructure, for permanent and transformational shifts, we need a plan that includes men. In Showing Up, Ray Arata details the proven methods he’s shared with such companies as Verizon, Bloomberg, Moody’s, Intel, Toyota, Hearst, and more, teaching men to Embrace healthy masculinity as a cornerstone of inclusionary leadership; Identify unhealthy masculine behaviors in the workplace—like mansplaining, maninterrupting, and manopolizing; Adopt behavior modifications aligned with being an inclusive leader and ally; Incorporate specific language to use in healthy discussions; and Leverage power and position to elevate underrepresented groups.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

Author Steve Magnante is well known for his encyclopedia-like knowledge of automotive facts. The details he regularly shares, both in the pages of national magazines and as a contributing host and tech expert at the popular Barrett-Jackson Auctions on television, are the kinds of details that car fanatics love to hear. Many feel that these facts are among the highlights of television auction coverage, much more interesting than the final hammer price. Steve turns his attention to the most popular car in history, the Ford Mustang. In more than 50 years, the Mustang has taken many turns, from the original pony car, to variants that are best described as pure muscle cars, to the misunderstood Mustang II, to the Fox-Body platform that revived the brand, all the way to the modern Coyote- and Voodoo-powered supercars. Magnante covers them all here, generation by generation, so that Mustang fans of any generation are sure to love this collection. Whether you’re an avid fan of all Mustangs, a trivia buff who wants to stump your friends, or have a particular affinity for a particular era of Mustangs, this book is an informative and entertaining collection of facts from one of the industry’s most beloved and respected sources. Add this copy to your collection today.

The mysteries of the versatile LS series engines are unlocked in this GM Engine Performance Techbook. Covering everything from engine overhaul, cylinder head selection and modification, induction and fuel systems, camshafts and valve train, to beefing-up the bottom end, turbo and supercharger add-ons, engine swaps and extreme builds, this Techbook will help you get the most from your LS-powered vehicle.

Spinoff is NASA's annual premiere publication featuring successfully commercialized NASA technology. For more than 40 years, the NASA Commercial Technology Program has facilitated the transfer of NASA technology to the private sector, benefitting global competition and the economy. The resulting commercialization has contributed to the development of commercial products and services in the fields of health and medicine, industry, consumer goods, transportation, public health, computer technology, and environmental resources. Since 1976, Spinoff has featured between 40 and 50 of these commercial products annually.

For those times when hard work and persistence just aren't enough, Terri Sjodin offers an inspiring guide to getting scrappy and beating the odds. Terri Sjodin loves scrappy people -- those who beat the odds with a blend of cleverness and fighting spirit. People who see big problems and come up with big solutions. People like the clever Girl Scout who sold 117 boxes of cookies in two hours outside a medical marijuana dispensary, or the entrepreneur who turned his home into an indoor jungle to sell investors on the Rainforest Cafe Restaurant chain. It can seem like these successes are just one-off acts of ingenuity or isolated flashes of brilliance. But today it takes more than just creativity, more than just persistence, more than just a dream to reach big goals -- it takes a mindset and a strategy. Sjodin explains the common elements behind every successful scrappy effort.

A one-of-a-kind compendium of motorcycles for the veteran, mid-level rider, or rank beginner with major dreams. Over 100 classic, celebrity, and experimental bikes are showcased, from those of Lawrence of Arabia to the world's fastest production bike. Over 850 full-color photos.
