Use BBC Bitesize to help with your homework, revision and learning. Find free videos, step-by-step guides, activities and quizzes by level and subject.

More than any other introductory psychology textbook, the Hockenburys' brief book presents the discipline with a unique understanding of today's students--emphasizing its relevance and immediate impact on their lives. Without sacrificing science, the authors draw on personal experiences and anecdotes to illustrate essential concepts and important research direction. The "Fourth Edition" incorporates hundreds of new research studies throughout, with particular attention to areas of intensive current research and enduring student interest, including neuroscience, lifespan development, memory, and gender and culture issues. Also new is the dramatically enhanced media and supplements package, offering more ways than ever to help students make the study of psychology a part of their world.

More than any other introductory textbook, Don and Sandra Hockenbury's Discovering Psychology makes the story of psychology a captivating, highly personal experience for all kinds of students. Without sacrificing science, the authors draw on personal experiences and other real stories to illustrate essential concepts and important research directions in a recognizable, relatable way. This is especially true in the area of cutting-edge neuroscience, which the Hockenburys make extremely teachable and utterly absorbing without oversimplifying the presentation. Special Package: Each student copy of Discovering Psychology, Sixth Edition is packaged with the book's Study Guide and Worth Publishers' new Three-Dimensional Brain. DSM 5 Updates Available for Fall 2014 classes, this update version features new content from Sandra Hockenbury in response to the release of the DSM-5. This new content is integrated into the text without

Read Free Required Text Discovering Psychology Sixth Edition

changing pagination or the structure of the chapters. A special DSM 5 Supplement by Sandra Hockenbury is available for Fall 2013 and Spring and Summer 2014 courses.

In this fresh new offering to the Intro Psychology course, authors John Cacioppo and Laura Freberg portray psychology as being an integrative science in two ways. First, they have written a text that reflects psychology's rightful place as a hub science that draws from and is cited by research in many other fields. Second, this text presents psychology as a unified science that seeks a complete understanding of the human mind, rather than as a loosely organized set of autonomous subspecialties. As psychology moves rapidly toward maturity as an integrative, multidisciplinary field, the introductory course offers an opportunity to teach all of psychology in one place and at one time. This text reflects that evolution--and the authors' excitement about it. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

For every major content section, longtime author Richard Straub has divided each module by major topic; each section includes a Preview (objectives that require short answers) and "Stepping Through the Section" (which include detailed, fill-in-the-blank questions). The Study Guide also includes self-tests, critical-thinking exercises, vocabulary and language activities, Internet activities, and crossword puzzles.

Check out a preview. More than any other introductory psychology textbook, the Hockenburys' brief book is the one in which students see themselves – and the world they live in. The new edition builds on that distinction, presenting the discipline with a unique understanding of today's students in all their diversity, emphasizing the field's immediate impact on their lives. Without sacrificing science, Don and Sandy Hockenbury draw on personal experiences and anecdotes to illustrate essential concepts and important research directions. **FREE PACKAGE ITEMS WITH THIS EDITION UPON ORDERING** The Discovering Psychology eBook, Online Study Center, or Study Guide can be packaged FREE with this new edition: Discovering Psychology and Study Guide ISBN-13: 978-1-4292-1749-1 Discovering Psychology and Online Study Center ISBN-13: 978-1-4292-4697-2
