The “engrossing, thoroughly researched look at women who are in romantic relationships with incarcerated men”—fully updated with twenty-first-century cases (Publishers Weekly). In 1991, Sheila Isenberg’s classic study *Women Who Love Men Who Kill* asked the provocative question, “Why do women fall in love with convicted murderers?” Now, Isenberg returns to the same question in the age of smart phones, social media, mass shootings, and modern prison dating. The result is a compelling psychological study of prison passion in the new millennium. Isenberg conducts extensive interviews with women who seek relationships with convicted killers, as well as conversations with psychiatrists, social workers, and prison officials. She shows that many of these women know exactly what they are getting into—yet they are willing to sacrifice everything for the sake of a love without hope, promise, or consummation. This edition of *Women Who Love Men Who Kill* includes gripping new case studies and an absorbing look at how the digital age is revolutionizing this phenomenon. Meet the young women writing “fan fiction” featuring America’s most sadistic murderers; the killer serving consecutive life sentences for strangling his wife and smothering his toddler daughters—and the women who visit him in prison; the high-powered journalist who fell in love and risked it all for “Pharma Bro” Martin Shkreli; and many other women absorbed in online and real-life dalliances with their killer men.

The study of what is collectively labeled “New Media”—the cultural and artistic practices made possible by digital technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with many universities now offering it as a major. The Johns Hopkins *Guide to Digital Media* is the first comprehensive reference work to which teachers, students,

and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field.

(Super Easy Songbook). It's super easy! This series features accessible arrangements for piano, with simple right-hand melody, letter names inside each note, and basic left-hand chord diagrams. This edition includes 60 Disney favorites: Be Our Guest * Can You Feel the Love Tonight * Chim Chim Cher-ee * A Dream Is a Wish Your Heart Makes * Friend like Me * Heigh-Ho * Kiss the Girl * Let It Go * Mickey Mouse March * Part of Your World * Reflection * A Spoonful of Sugar * That's How You Know * True Love's Kiss * When You Wish upon a Star * Whistle While You Work * Winnie the Pooh * Written in the Stars * Yo Ho (A Pirate's Life for Me) * You've Got a Friend in Me * and many more.
