If all of the above weren't true, however, I probably wouldn't have finished Saints Astray, the sequel to Santa Olivia. Loup, the genetically modified girl, is still a fun character. She looks normal, but her father, along with more than a hundred other men, was engineered by Chinese scientists who crossed his genes with something predatory—probably a wolf.

Saints Astray is a direct sequel to Santa Olivia. Unless you have already read and loved Santa Olivia, there is absolutely no point in reading this book. This book didn't need to be written, and that's its biggest issue.

Lushly written with rich and vivid characters, SANTA OLIVIA is Jacqueline Carey's take on comic book superheroes and the classic werewolf myth. Loup Garron was born and raised in Santa Olivia, an isolated, disenfranchised town next to a US military base inside a DMZ buffer zone between Texas and Mexico. A fugitive "Wolf-Man" who had a love affair with a local woman, Loup's father was one of a group of men genetically-manipulated and used by the US government as a weapon. The "Wolf-Men" were engineered to have superhuman strength, speed, sensory capability, stamina, and a total lack of fear, and Loup, named for and sharing her father's wolf-like qualities, is marked as an outsider. After her mother dies, Loup goes to live among the misfit orphans at the parish church, where they seethe from the injustices visited upon the locals by the soldiers. Eventually, the orphans find an outlet for their frustrations: They form a vigilante group to support Loup Garron who, costumed as their patron saint, Santa Olivia, uses her special abilities to avenge the town. Aware that she could lose her freedom, and possibly her life, Loup is determined to fight to redress the wrongs her community has suffered. And like the reincarnation of their patron saint, she will bring hope to all of Santa Olivia.

After her escape from military custody, Loup and her girlfriend Pilar have a chance to reinvent their lives thousands of miles away from the forgotten and disenfranchised Texas border town of Outpost 12- known as Santa Olivia to those trapped there for decades. Thanks to Loup's preternatural gifts of strength, speed, and an innate fearlessness, as well as Pilar's unexpected skill with a pistol, they find new careers as high-priced bodyguards for a world famous British rock band. Back in the States, an investigation into the existence of Outpost 12 begins in Washington, D.C. When the key witness with evidence to expose the military cover-up, their old comrade Miguel, vanishes, the case seems lost. The abandoned citizens of Santa Olivia need a champion, a voice raised on their behalf, which pushes Loup and Pilar into a hard choice. If Loup returns to U.S. soil, she'll be an outlaw. If she's caught, she'll be taken into custody again; and this time, there may be no escape. But if she and Pilar don't fight for freedom of those they left behind, no one will.--From back cover.

THE FIRST AGENT OF HEL NOVEL! "Jacqueline Carey proves her versatility with this compelling and delightful piece of urban fantasy."—#1 New York Times Bestselling Author Charlaine Harris The Midwestern resort town of Pemkowitz boasts a diverse population: eccentric locals, wealthy summer people, and tourists by the busload—not to mention fairies, sprites, vampires, naiads, ogres, and a whole host of eldritch folk, presided over by Hel, a reclusive Norse goddess. To Daisy Johanssen, fathered by an incubus and raised by a single mother, it's home. And as Hel's enforcer and the designated liaison to the Pemkowitz Police Department, it's up to her to ensure relations between the mundane and eldritch communities run smoothly. But when a young man from a nearby college drowns—and signs point to eldritch involvement—the town's booming paranormal tourism trade is at stake. Teamed up with her childhood crush, Officer Cody Fairfax, a sexy werewolf on the down-low, Daisy must solve the crime—and keep a tight rein on the darker side of her nature. For if she's ever tempted to invoke her demonic birthright, it could accidentally unleash nothing less than Armageddon.

"Destined from birth to serve as protector of the princess Zariya, Khai is trained in the arts of killing and stealth by a warrior sect in the deep desert; yet there is one profound truth that has been withheld from him"--Book jacket.

A nation born of angels, vast and intricate and surrounded by danger... a woman born to servitude, unknowingly given access to the secrets of the realm... Born with a scarlet mote in her left eye, Phédre nó Delaunay is sold into indentured servitude as a child. When her bond is purchased by an enigmatic nobleman, she is trained in history, theology, politics, foreign languages, the arts of pleasure. And above all, the ability to observe, remember, and analyze. Exquisite courtesan, talented spy... and unlikely heroine. But when Phédre stumbles upon a plot that threatens her homeland, Terre d'Ange, she has no choice. Betrayed into captivity in the barbarous northland of Skaldia and accompanied only by a disdainful young warrior-priest, Phédre makes a harrowing escape and an even more harrowing journey to return to her people and deliver a warning of the impending invasion. And that proves only the first step in a quest that will take her to the edge of despair and beyond. Phédre nó Delaunay is the woman who holds the keys to her realm's deadly secrets, and whose courage will decide the very future of her world. Not since Dune has there been an epic on the scale of Kushiel's Dart—a massive tale about the violent death of an old age and the birth of a new. It is a novel of grandeur, luxuriance, sacrifice, betrayal, and deeply laid conspiracies. A world of cunning poets, deadly courtiers, deposed rulers and a besieged Queen, a warrior-priest, the Prince of Travelers, barbarian warlords, heroic traitors, and a truly Machiavellian villainess... all seen through the unflinching eyes of an unforgettable heroine. Miranda and Caliban is bestselling fantasy author Jacqueline Carey's gorgeous retelling of The Tempest. With hypnotic prose and a wild imagination, Carey explores the themes of twisted love and unchecked power that lie at the heart of Shakespeare's masterpiece, while serving up a fresh take on the play's iconic characters. A lovely girl grows up in isolation where her father, a powerful magus, has spirited them to in order to keep them safe. We all know the tale of Prospero's quest for revenge, but what of Miranda? Or Caliban, the so-called savage Prospero chained to his will? In this incredible retelling of the fantastical tale, Jacqueline Carey shows readers the other side of the coin—the dutiful and tenderhearted Miranda, who loves her father but is terribly lonely. And Caliban, the strange and feral boy Prospero has bewitched to serve him. The two find solace and companionship in each other as Prospero weaves his magic and dreams of revenge. Always under Prospero's jealous eye, Miranda and Caliban battle the dark, unknowable forces that bind them to the island even as the pangs of adolescence create a new awareness of each other and their doomed relationship. And that destiny promises both pleasure and pain, as she finds herself facing an ambitious mage, a noble warrior princess desperate to save her father's throne, and the spirit of a celestial dragon.
