"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR)

provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by

providing them with  
targeted feedback.

Insurmountable as the  
challenges faced by  
many students may  
seem, TWR can make a  
dramatic difference.

And the method does  
more than improve  
writing skills. It also  
helps: Boost reading  
comprehension Improve  
organizational and study  
skills Enhance speaking

abilities Develop  
analytical capabilities  
TWR is as much a  
method of teaching  
content as it is a method  
of teaching writing.  
There's no separate  
writing block and no  
separate writing  
curriculum. Instead,  
teachers of all subjects  
adapt the TWR  
strategies and activities  
to their current

curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while

Writing at Key Stage 1 is a practical manual for teachers, to be used directly in the classroom. The book begins with a series of language games, designed to warm up creativity and strengthen the imagination. This is followed by a series of creative story workshops, based on the writer's own experience
