The story of The Usual Suspects has the kind of "rags to riches" back story that makes not only the film itself, but the tale of its creation a tale worth telling. Inspired by a magazine headline, it was a poster before it was a screenplay, yet it stands in opposition to the High Concept Hollywood movie. Studying The Usual Suspects is an analysis of a film that is both a ripping yarn and an exercise in virtuoso technique. Author Judith Gunn offers: a thorough introduction to semiotics as a way of approaching the multiple meanings of the film; a consideration of the film's noir antecedents and influences; a discussion of the film's playful approach to narrative; an overview of John Ottman's unique role as both composer and editor and how this affects the finished article, including a shot-by-shot analysis of the dramatic and mysterious opening sequence; and a definitive account of the film's genesis from idea to film festival acclaim.

The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
