This book comprises select papers presented at the International Conference on Trends and Recent Advances in Civil Engineering (TRACE 2018). The book covers inter-disciplinary research and applications in integrated water resource management, river ecology, irrigation system, water pollution and treatment, hydraulic structure and hydro-informatics. The topics on water resource management include technological intervention and solution for climate change impacts on water resources, water security, clean water to all, sustainable water reuse, flood risk assessment, interlinking of rivers and hydro policy. The contents of this book will be useful to researchers and professionals working in the field of water resource management and related policy making.

This text provides balanced coverage of the basic concepts of thermodynamics and heat transfer. Together with the illustrations, student-friendly writing style, and accessible math, this is an ideal text for an introductory thermal science course for non-mechanical engineering majors.

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Classic pasta dishes from America's 1st and most beloved master chef Whether you're entertaining guests or simply cooking for 1, pasta is sure to delight. The ultimate comfort food, it can be found in the cuisines of nearly every culture. James Beard, heralded by the New York Times as "the dean of American cookery" enriches our understanding of this culinary staple with his collection of recipes and commentary on store-bought versus homemade pasta, wine pairings, choosing the perfect cheese, and other insights. From familiar spaghetti entrées to more adventurous fare, such as udon noodle soup and spätzle, Beard brings meals from all over the globe into the home chef's kitchen. Under the guidance of America's original gastronomic genius, the basic noodle is elevated in dishes such as basil lasagna, Portuguese fish stew with orzo, and cheddar angel hair soufflé. Beard on Pasta is full of easy-to-follow recipes, along with tips on preparation, sauce, and serving that you'll be eager to try. This comprehensive cookbook provides all the tools you need to make delectable and unforgettable pasta for any occasion.

We live in an era of nation-states. Nationhood is predicated on shared sense of past and a common purpose of future. More than nation-state, India is a civilization, a complete civilization. To keep this civilization fresh and vibrant, winds from all directions are imperative for its nourishment. But, winds cannot be allowed to build into destructive storms, that threaten to uproot the civilization, the very basis of nationhood. Jihadism and Maoism are the two main destructive storms. Fueling these storms are India's enemies as well as the forces of proselytization. They have to be crushed both at ideological and physical levels. We have been squeamish in dealing with the problems because of the misplaced notion that all ideologies are basically benign and beneficial, they are not. 73 years of our post-independence experience is testimony. This misplaced notion has caused at least a lakh lives in Kashmir alone, resulting in ethnic cleansing of Hindus from the Valley by the jihadists. Sardar Patel did crush the communist revolt in Telangana, but in the following years due to subversion of our political class, it grew into the 'Red Corridor', i.e. from Tirupati to Pashupati. These forces have to be vanquished to secure the internal or the third front. This book 'Know the Anti-Nationals' exposes these enemies within.

Gina: Freshly brewed tea. Earl Grey, loose leaf. Rain on the windowsills. The smell of library books. Escape into worlds greater than this. Solitude. Invisibility. A quiet life. Maybe boring, but boring was never dangerous. Until I saw what I was missing out on. Who I was missing out on. The man who shattered my boring, safe life and lay it to ruin. The man I'd been in love with since I was a teenager. Who I'd been invisible to since I was a teenager. The man who just happened to be a world-famous rock star. Sam: Whisky. Neat. Leave the bottle. Crowd of hundreds of people. No, make it thousands. All shouting my name. Live fast. Die... Die? I'm too young, too famous and far too badass to die. Death doesn't happen when you stop breathing, it's what happens before that. Death is the monotony of life. The grave? Well, all the greats live there. You're not a rock star until you die before you're thirty. The grave doesn't bother me. Just the quiet. That is death in the life of rock. But then... her. She'd been there all along and I'd been too blind, too obsessed with the fast, loud life to realize where the real Nirvana lay. In the silence. Even the grave couldn't hold me if I didn't get her. And I'm a rock star. And a badass. And as stubborn as I am good-looking. I know how to get what I want. I also know how to kill anyone who gets in my way.
