A cloth bag containing 20 paperback copies of the title that may also include a folder with sign out sheets.

Short Stories of Space takes readers on a fascinating and often personal journey into seven essential space events of the past year. Each story delves into the science, politics and history behind the news headlines, while bringing to life the space research you may have missed. Author Piers Horner provides fresh perspectives on what these exciting topics mean for our society; for science, and for the nature of human wonder, making them suitable for both a general audience and seasoned enthusiasts alike. - What are the implications of the first private launch of astronauts to the International Space Station for our future in space? - Does our understanding of the Universe's history need to be revised? - Could ancient life still exist in the atmosphere of Venus? Find out answers to these questions and much more inside.

Most Western health professionals practice in multicultural societies. The influence of culture on illness, health and rehabilitation is therefore very important. Despite this, most lower level health psychology texts skim over these differences and assume our traditional biomedical approach will be appropriate for all. In this completely revised and updated edition of a groundbreaking book, Malcolm MacLachlan redresses the balance by showing how social and cultural aspects interact with the purely physical: from assessment and treatment all the way through to effects on rehabilitation.

Written primarily for serving and trainee deck officers, those studying for certificates of competency in merchant shipping and fishermen, Reeds Maritime Meteorology analyses the elements and forces which contribute to maritime meteorology and the principles which govern them. Updated to include the latest developments in the use of satellite technology in forecasting, Navtext and the ramifications of GMDSS, the book examines: · cloud formation and development · precipitation and thunderstorms · atmospheric pressure and wind · ocean currents and swell · tropical revolving storms · the development and distribution of sea ice · weather routing · passage planning · the management and care of cargo in heavy weather This revised edition covers significant developments in the variety of forecasts available for the seafarer, coverage of global warming and weather routing options, as well as updates throughout in line with technological advancements and research discoveries, and updates to the exam questions at the end of each chapter.

The best-selling poet of HER & HER Vol. 2 returns with a different voice, on a different path,

but with the same mission. HIM is a collection of "he-poetry" in a world of "she-poems" that tends to only refer to him when speaking ill. Through poetry and prose, Pierre wears his heart on paper and pens a tribute to men; their undelivered feelings, unrecognized strength, their loud silence, and their neglected complaints. HIM celebrates good men, their love, their worth, and their beauty. The characteristics that often fall into the shadows are now brought to life.
