Colin Burgess offers a comprehensive yet personal look at the 1962 orbital mission of Wally Schirra aboard the spacecraft Sigma 7, the first book about this popular pioneering astronaut which explores his entire life and accomplishments. This continues the Pioneers in Early Spaceflight series, the volumes of which form an excellent record of Project Mercury's pioneering early phase of the Space Age. Schirra ' s pre-NASA life is examined, as well as his training as a NASA astronaut and for his Mercury MA-8 flight. The 6-orbit flight of Sigma 7 is fully covered from its origins through to the spacecraft ' s safe recovery from the ocean after a highly successful Mercury mission. Schirra ' s participation on the Gemini 6 and Apollo 7 missions is also told, but in brief, and the book also relates his post-NASA life and activities through to his passing in 2007. The Mercury Seven occupy a unique spot in the history of human spaceflight, and Schirra is at last given his due as one of the contributing astronauts in this painstakingly researched book.

This document presents the results of the third United States manned orbital space flight conducted on October 3, 1962. The performance discussions of the spacecraft and launch-vehicle systems, the flight control personnel, and the astronaut, together with a detailed analysis of the medical aspects of the flight, form a continuation of the information previously published for the first two United States manned orbital flights, conducted on February 20 and May 24, 1962, and the two manned suborbital space flights.

Now in a fully revised and updated third edition, Sport Facility Operations Management goes beyond the basic theories of sport facility management to include relevant practical professional experiences connecting facilities, people, and technology. This is a comprehensive and engaging textbook introducing cutting-edge concepts and best practice in sport facility operations management.

Each chapter contains real-world case studies and discussion questions, innovative 'Technology Now' and new 'Facility Focus' features, and 'In the Field' segments about what is going on in the industry. This new edition also provides new content in the areas of project management, social and digital media, revenue generation and diversification, performance analytics, and impacts and legacies. This is a vital resource for sport management educators and students, especially those studying facility management. It is also an interesting read for industry professionals working in sport facility management, from grassroots and community complexes to global mega stadiums and arenas. Dedicated online materials include PowerPoint presentations for each chapter; multiple-choice and essay questions; online appendices with diagrams, schematics, manuals, and forms; a glossary; and a sample master syllabus.
