Simon Weston is ready to lay his Falklands ghosts to rest. Simon Weston's life was blown apart when his ship was bombed during the Falklands conflict of 1982. Many of his friends died in the blast and fire that followed. Simon escaped with horrific burns to become a true hero for our times, as he struggled to rebuild his life, and to provide inspiration to others. His work for charity has brought him an OBE, the freedom of Liverpool and much recognition. This book sees Weston at last lay his Falklands ghosts to rest. Two meetings with the Argentinian pilot who bombed the Sir Galahad have strengthened his conviction that there are no winners in a war. In a third and final return to the islands, Simon confronts the magnitude of loss and bids goodbye to the old self he left behind. It really is time to move on.

James Scala is dragged away from his wife and children by a more powerful love: that of serving "Queen and Country". But is he acting like a blind fool, believing he is a hero and not an injured ex-SAS trooper? Either way, he knows he will be true to himself in following his chosen path.

The story of Welsh Guardsman Simon Weston, who while serving in the Falklands War suffered horrific injuries as a result of the attack on the ship Sir Galahad. Simon gives his own account of his war experiences, and his subsequent struggle to rebuild his life despite physical and emotional scars.

Nelson's got 'retirement'. It's not an illness, just something which happens to old carthorses at the end of their career. But when Nelson's boss, Mike the Milk, has problems with his new milk float, crossword expert Nelson finds himself called out of retirement to head off an environmental disaster!

On the 8th of June 1982, McNally sat in his Rapier missile battery watching helplessly as bombs rained down on the Sir Galahad troop ship and its crew of hundreds of soldiers, his system having failed. He left the army after the war and, even though he re-enlisted (volunteering for two tours of Northern Ireland), he was riddled by guilt and plagued by nightmares and flashbacks of that awful day. McNally later spearheaded a groundbreaking Post Traumatic Stress lawsuit against the government. 25 years on, Watching Men Burn is his story of the reality of warfare.

Judicial hanging is regarded by many as being the quintessentially British execution. However, many other methods of capital punishment have been used in this country; ranging from burning, beheading and shooting to crushing and boiling to death. This book explores these types of execution in detail. Readers may be surprised to learn that a means of mechanical decapitation, the Halifax Gibbet, was being used in England five hundred years before the guillotine was invented. Boiling to death was a prescribed means of execution in this country during the Tudor period. From the public death by starvation of those gibbeted alive, to the burning of women for petit treason, this book examines some of the most gruesome passages of British history.

A Spy without a Country Simon Weston grew up royal in a place where aristocracy still mattered. Serving Queen and country meant everything to him, until M16 marked him as damaged goods and he left his home in disgrace. Ian Taggart showed him a better way to serve his fellow man and introduced him to Sanctum, a place to pursue his passion for Dominance and submission. Topping beautiful subs was a lovely distraction until he met Chelsea, and becoming her Master turned into Simon's most important mission. A Woman without Hope Chelsea Dennis grew up a pawn to the Russian mob. Her father's violent lessons taught her that monsters lurked inside every man and they should never be trusted. Hiding in the shadows, she became something that even the monsters would fear--an information broker who exposed their dirty secrets and toppled their empires. Everything changed when Simon Weston crossed her path. Valiant and faithful, he was everything she needed--and a risk she couldn't afford to take. A Force too Strong to Resist When dark forces from her past threaten her newfound family at Sanctum, Chelsea must turn to Simon, the one man she can trust with her darkest secrets. Their only chance to survive lies in a mystery even Chelsea has been unable to solve. As they race to uncover the truth and stay one step ahead of the assassins on their heels, they will discover a love too powerful to deny. But to stop a killer, Simon just might have to sacrifice himself...

Winner of the 2012 Philip K. Dick Award Samuil Petrovitch is a survivor. He survived the nuclear fallout in St. Petersburg and hid in the London Metrozone - the last city in England. He's lived this long because he's a man of rules and logic. For example, getting involved = a bad idea. But when he stumbles into a kidnapping in progress, he acts without even thinking. Before he can stop himself, he's saved the daughter of the most dangerous man in London. And clearly saving the girl = getting involved. Now, the equation of Petrovitch's life is looking increasingly complex. Russian mobsters + Yakuza + something called the New Machine Jihad = one dead Petrovitch. But Petrovitch has a plan - he always has a plan - he's just not sure it's a good one.
