Starbucks Barista Troubleshooting . Coffee is not creamy enough. Your coffee seems to have a coarse texture, or spouts out too quickly. Grind the coffee more finely. If the texture of your coffee doesn't seem right, it may not be an issue with the barista. Simply grind the coffee beans more finely. Coffee spouts out too slowly.

"A practical guide to getting what you paid for from uncaring, unscrupulous, and unavailable companies, including the government, through the creative and legal use of technology"--Provided by publisher.

The New York Times bestseller One of America's most original and biting comic satirists, Denis Leary takes on all the poseurs, politicians, and pop culture icons who have sucked in public for far too long. Sparing no one, Leary zeroes in on the ridiculous wherever he finds it—his Irish Catholic upbringing, the folly of celebrity, the pressures of family life, and the great hypocrisy of politics—with the same bright, savage, and profane insight he brought to his critically acclaimed one-man shows No Cure for Cancer Lock 'n Load. Proudly Irish-American, defiantly working class, with a reserve of compassion for the underdog and the overlooked, Leary delivers blistering diatribes that are both penetrating social commentary with no holds barred and laugh-out-loud funny. As always, Leary's impassioned comic perspective in Why We Suck is right on target. Leary is the star and co-creator of the Emmy-nominated television show Rescue Me.

Because of its ability to reduce tiredness, sleep deprivation and improve alertness, caffeine emerged in the twenty-first century as a miraculous specific, which allows humans to cross their normal physiological and psychological body limits. Its attractiveness comes from its natural origins and strong psycho-stimulating properties, with relatively weak side effects. Caffeine studies carry the hope to understand the associations between inherited genotype and drug action and to find highly personalized treatments for various diseases, more sophisticated drug delivery systems, safer ways of protecting plants and cheap, renewable fuels. This book consists of chapters covering caffeine history, methods of its determination and not only astonishing medicinal but also non-medicinal applications. It is our hope that every reader will find in this book something interesting, inspiring, informative and stimulating.

Make Coffee and Espresso at home! Make sure you're not getting ripped off at your local coffee shop! Revised and Expanded Second Edition for 2016 50% Additional Content This 'coffee for beginners' book will take you from zombie to full on coffee geek by teaching you everything from the basics of coffee brewing to coffee roasting at home. I've always loved coffee and wanted to know more about it, but I hated all the pretense and mystique that surrounded it. Most of all, I hated walking into a coffee shop and feeling like I had to learn a new language just to order my black coffee. Still... Coffee is more than just a caffeine delivery system! This book sets the record straight and separates fact from fiction. Description from 1st Edition I, too, was a coffee zombie, walking around calling myself a coffee lover. For years I stumbled around in a daze drinking stale, bitter coffee and grumbling "beans... beans..." Thank Goodness I finally woke up to the world of coffee. By Immersing myself in the coffee world via reading every book I could find, visiting trade fairs, every high-end cafe I could find, and barista competitions, I realized that, while there is a huge amount of information out there free on the Internet and in artisan coffee shops, there was no single resource that connects all the dots and spells it all out for confused novice coffee drinkers. Until now. Fact: Making a great cup of coffee requires focus and commitment. This means that to make a billion dollar for-profit coffee franchise, you MUST find ways to cut corners and short change your customers. Fact: There are some GREAT coffee shops out there that care about coffee and customers and are worth every penny they charge, but they can be hard to identify, making it easy to just settle for familiar chain coffee. Fact: Making very good coffee is NOT THAT HARD. With a minimal investment in time and education you can make the best cup of coffee you've ever had in your life in the comfort of your own home. This book shows exactly why billion dollar for-profit coffee chains are inherently unable to produce coffee of the quality you can make in the kitchen. The Coffeeist Manifesto is half self-defense manual and half how-to instructional. By the end of it, any coffee beginner will have a foundational understanding of the coffee industry and know how to identify the good coffee shops from the bad ones. But most importantly, you'll know how to beat them at their own game by making coffee at home that blows the cafes out of the water. Table of Contents: Part I -Coffee Theory Coffeeists of the World, Unite! History The Politics of Coffee Barista's Dilemma Coffee Myths (caffeine facts, health, etc) Four Keys to Killer Coffee Coffee Roasting at Home Part II - Coffee Brewing Methods Zen and the Art of Brewing Coffee Instant Coffee Cowboy Coffee Cold Brew Percolator Pot Coffee Pot Press Pot/French Press Aeropress Pour Over/ Mr. Clever Vacuum Pot Regional Variations Trendy coffee brew methods Part III - Espresso A word about Espresso Moka Pot ("stovetop espresso") Grinders ROK Espresso Machine Rancilio Silvia Espresso Variations Part IV - The Truth About Coffee Shops Coffee Shop Appreciation Coffee Tourism The Rules Decoding the Menu Other Coffee Drinks Coffee Recipes -Green tea extract -Butter Coffee / Paleo Coffee / "Bulletproof coffee" -"Umpkinpay Picesay" latte From Coffeeist to Aficionado In summary, there's no shame in not being an expert on coffee. For dummies like us, I teach you what you need to know to go out and explore the world of coffee for yourself.

Kory was having enough trouble in high school. His girlfriend just dumped him, his poetry made him a target for ridicule, and college applications were looming. The very last thing he needed was to fall in love with another boy. *Waterways* is the complete novel from award-winning author Kyell Gold that includes his beloved story "Aquifers". Join Kory as his feelings and faith collide, washing away the life he knew. His brother Nick, friends Samaki and Malaya, and Father Joe are there to help, but it's Kory who has to navigate the thrills and perils of the new waterways that make up his life. At stake? Nothing much -- just a chance at true love and happiness. And he still has to graduate from high school...

Are you a current or emerging Christian leader who yearns to make a significant long-term difference? Do you sometimes wonder how to distinguish what is imperative from what is important? Are you a board member who wants your church or parachurch leadership team to become more intentional and on-target about doing the right things the right way? *The Leader's SEECret* is a parable that explores and applies God's Word to today's world of leadership diversions. It delves underneath the surface issues of a leader's or manager's knowledge and skills. *The Leader's SEECret* will help you discover, understand, and apply ten core features of one ancient principle. You will understand how to infuse the situations you face as a leader or manager with that timeless reality. And you will learn how you can inspire your staff to do so, too. Along the way, *The Leader's SEECret* shows the failure and regret a leader causes when his or her current leadership priorities conflict with lifetime purposes. This story comes in a concise, get-to-the-point writing style, making it very helpful for individual or group study. One warning: The principle undergirding *LeaderSlip* is simple---but not necessarily easy. If you take the challenge, you will become a more effective leader and---perhaps even more crucial---you will protect yourself from eventual failure.

Three edge-of-your-seat thrillers in the series starring Secret Service Agent Scott Roarke, now in one volume! Secret Service Agent Scott Roarke has the lives of the American people in his hands every day, from the leader of the free world on down. In these three novels, he confronts ruthless enemies and twisted conspiracies—and tries to stay one step ahead of annihilation... *Executive Actions*: An assassin's bullet kills the wife of a presidential candidate—and puts a foreign enemy's plan in motion... "The best political thriller I have read in a long, long time—right up there with the very best of David Baldacci."—Michael Palmer, New York Times bestselling author of *Oath of Office* *Executive Treason*: Roarke confronts Russian spycraft, murder in the White House, and a dangerous talk-radio host: "Completely mesmerizing."—Dale Brown, New York Times bestselling author of *Eagle Station* *Executive Command*: A spate of assassinations and a secessionist movement threaten the stability of the United States: "Electrifying...A political thriller of the highest order, cut from the cloth of Allen Drury and Richard Condon." —Jon Land, USA Today bestselling author of *The Tenth Circle*

Customers who have inconsistent experiences with products and services are understandably frustrated. But it's worse for organizations that can't pinpoint the causes of these problems because they're too focused on processes. This updated book shows your team how to use alignment diagrams to turn valuable customer observations into actionable insight. With this powerful technique, you can visually map existing customer experience and envision future solutions. Designers, product and brand managers, marketing specialists, and business owners will discover how experience diagramming helps you determine where business goals and customer perspectives intersect. Armed with this insight, you can provide the people you serve with real value. Mapping experiences isn't just about product and service design; it's about understanding the human condition. Emphasize recent changes in business using the latest mapping techniques Create diagrams that account for multichannel experiences as well as ecosystem design Understand how facilitation is increasingly becoming part of mapping efforts, shifting the focus from a deliverable to actionability Explore ways to apply mapping of all kinds to noncommercial settings, such as helping victims of domestic violence

This second standalone globe-hopping thriller in the Executive Series finds Secret Service Agent Scott Roarke confronted with Russian spycraft, murder in the White House, and a frenzy fueled by the country's leading hate talk radio personality. "As topical as tomorrow's Internet blog...fast-paced, with vivid characters and a plot right off the front pages. Surprises you on every page. A winner."—LARRY BOND, New York Times bestselling author of *Artic Gambit* The terrorists who came within a heartbeat of undermining the presidency of the United States in *Executive Actions* are back in *Executive Treason* with a new—and deadlier—plot to destabilize the U.S. government. It begins with the mugging and murder of a female White House staffer. Secret Service Agent Scott Roarke discovers the larger truth: the murder was committed by his secret nemesis, the mysterious assassin who had stayed one step ahead of him during the presidential campaign. This time, Roarke has found clues about the assassin's past that give him the tools he needs to hunt the hunter and also silence a popular hate talk radio host dividing the country. But the clues can only go so far. Roarke needs all his skill and a huge amount of luck if he's going to catch his quarry. "More chilling than science fiction. Gary Grossman shows how the media itself can become a weapon of mass destruction. You'll never listen to talk radio again without a shiver going down your spine."—GARRY GOLDMAN, executive producer of *Minority Report* and screenwriter for *Navy SEALs* and *Total Recall*
