This volume brings
together papers relating
to the pronunciation of

Semitic languages and the representation of their pronunciation in written form. The papers focus on sources representative of a period that stretches from late antiquity until the Middle Ages. A large proportion of them concern reading traditions of Biblical Hebrew, especially the vocalisation notation systems used to represent

them. Also discussed are orthography and the written representation of prosody. Beyond Biblical Hebrew, there are studies concerning Punic, Biblical Aramaic, Syriac, and Arabic, as well as post-biblical traditions of Hebrew such as piyyu and medieval Hebrew poetry. There were many parallels and interactions between these various

language traditions and the volume demonstrates that important insights can be gained from such a wide range of perspectives across different historical periods.

The book provides exemplary case studies of orthography, lexicography, morphology, syntax, language contact, dialectology, and sociolinguistics and, because of its depth of coverage, has broad implications for the linguistic dating of Biblical texts. The

Northwest Semitic inscriptions from the ancient kingdom of Judah and its contemporary Syro-Palestinian neighbors. In genre, language, and cultural context, these epigraphic stories are closer to biblical narratives than any other ancient Near Eastern narrative corpus. For the first time, Parker analyzes

and appreciates these stories as narratives and sets them beside comparable biblical stories. He illuminates the narrative character and techniques of both epigraphic and biblical stories and in many cases reveals their original social context and purpose. In some cases, he is able to shed light on the question of the

sources and composition of the larger work in which most of the biblical stories appear, the Deuteronomistic history. Against the claim that the genius of biblical prose narrative derives from the monotheism of the authors, he shows that the presence or absence of a divine role in each type of story is consistent throughout both biblical

Ancient Palestine served
as a land bridge between
the continents of Asia,
Africa, and Europe, and
as a result, the ancient
Israelites frequently

interacted with speakers of non-Semitic languages, including Egyptian, Greek, Hittite and Luwian, Hurrian, Old Indic, and Old Iranian. This linguistic contact led the ancient Israelites to adopt non-Semitic words, many of which appear in the Hebrew Bible. Benjamin J. Noonan explores this process in *Non-Semitic*

Loanwords in the Hebrew Bible, which presents a comprehensive, up-to-date, and linguistically informed analysis of the Hebrew Bible ' s non-Semitic terminology. In this volume, Noonan identifies all the Hebrew Bible ' s foreign loanwords and presents them in the form of an annotated lexicon. An

appendix to the book
analyzes words
commonly proposed to
be non-Semitic that are,
in fact, Semitic, along
with the reason for
considering them as
such. Noonan ' s study
enriches our
understanding of the
lexical semantics of the

translation and exegesis of the biblical text. It also enhances our linguistic understanding of the ancient world, in that the linguistic features it discusses provide significant insight into the phonology, orthography, and morphology of the languages of the ancient Near East. Finally, by tying together linguistic
