India launched the Swachh Bharat Mission, with a vision of ensuring hygiene, waste management and sanitation across the nation. The MoUD houses the mission and indeed, it is the crucible in which many innovative ideas and plans have been-and continue to be nurtured and developed to ensure the success of the Mission.

Simplifying All The Steps: • Screening Test • Psychological Test • Group Testing • Interview • Conference Procedure With Dynamic Topics: • Service-related Information • Geopolitics • National Issues In this new and updated edition the author takes the candidates through the various stages of the SSB test. He lists out the different phases of the tests that are conducted in exact sequential order with his vast experience in this field. The content in this new edition has been divided into two parts and nine sections. The first part addresses the screening tests, which includes verbal, non-verbal, picture perception and discussion tests followed by psychological tests, group testing, interview techniques and conference procedure. The second part covers service-related information, geopolitics and national issues. KEY FEATURES • Simplified and reader-friendly approach towards all necessary steps: Screening Test, Psychological Test Series, Group Testing Series, Interview Techniques and Conference Procedure • Coverage of essential topics like Service-Related Information with Geopolitics and National Issues DR (CDR) N K NATARAJAN has an experience of over 25 years in the Indian Navy, and a three year stint as a Group Testing Officer at the Selection Center in Bhopal. In addition to serving in the navy, he also holds a degree in management and a doctorate in psychology. He has helped assess more than 1500 candidates during his term as a selection officer.

The book presents high-quality research papers from the Seventh International Conference on Solid Waste Management (IconSWM 2017), held at Professor Jayashankar Telangana State Agricultural University, Hyderabad on December 15–17, 2017. The conference, an official side event of the high-level Intergovernmental Eighth Regional 3R Forum in Asia and the Pacific, aimed to generate scientific inputs into the policy consultation of the Forum co-organized by the UNCRD/UNDESA, MoEFCC India, MOUD India and MOEJ, Japan. Presenting research on solid waste management from more than 30 countries, the book is divided into three volumes and addresses various issues related to innovation and implementation in sustainable waste management, segregation, collection, transportation of waste, treatment technology, policy and strategies, energy recovery, life cycle analysis, climate change, research and business opportunities.

Make in Steel Make in India is a complete e-Book with the 3 Years Initiatives and Achievements of The Government of India (Ministry of Steel). India is the world’s third-largest producer of crude steel (up from eighth in 2003) and is expected to become the second-largest producer. The steel sector in India contributes nearly two per cent of the country’s gross domestic product (GDP) and employs over 6,00,000 people. The growth in the Indian steel sector has been driven by domestic availability of raw materials such as iron ore and cost-effective labour. Consequently, the steel sector has been a major contributor to India’s manufacturing output. The Indian steel industry is very modern with state-of-the-art steel mills. It has always strived for continuous modernisation and up-gradation of older plants and higher energy efficiency levels. Presently, India’s crude steel capacity is around 126 Million Tonnes (MT) and Production of crude steel was 97.4 MT during 2016-17.

This volume discusses the importance of positive schooling in producing responsible and potentially productive adults. Students are generally more motivated to do well and to realize their full potential in schools that have a positive schooling climate, where they feel safe, included and supported. Nevertheless, the reality in today's schools is very different. This volume discusses the major challenges faced by children and adolescents in schools, including problems with curricula, safety issues, lack of inclusive policies, non-availability of teachers, ineffective teaching, insensitivity towards students’ issues, improper evaluation methods, harmful disciplinary measures, and so on. Experts in child psychology and education discuss these issues at length in this volume and offer viable solutions for policymakers, school administrators, teachers and parents to make suitable changes and create a positive atmosphere in educational institutions. This volume further discusses the role of various stakeholders---school principals, teachers, counsellors and psychologists---in addressing these challenges. In addition, it raises other, emerging issues which have not been covered in previous volumes on this topic and offers evidence-based suggestions

to address them. The intended readership of the volume is researchers and students of psychology, education, sociology, social work and public health, and school teachers, administrators and teacher-trainers.

The main objective of this Seminar proceedings book is to analyse the performance of the present development programmes, the issues and challenges and also reflect and think about whether and to what extent the benefits of these programmes have percolated to the weaker sections of our society- indeed, have they reached those they were meant to reach ?

Waste Management Policies and Practices in BRICS Nations explores recent developments in waste management. BRICS nations are the emerging economies of the world. Increasing populations, urbanization, industrialization and uses of chemical fertilizer and pesticide in agriculture for enhanced productivity of food, especially in India and China, to support the large populations harm the natural environment. The rise in the living standards of the human population has increased environmental pollution manifold, resulting in the huge generation of biodegradable and non-biodegradable waste simultaneously, which has contaminated natural resources such as soil, water and air. It has led to undesirable effects on the environment and human health. The book offers comprehensive coverage of the most essential topics, including: Waste management problems with special reference to MSW in Brazil, Russia, India, China and South Africa Solid waste management in BRICS nations Hazardous waste management in BRICS nations Policies and laws in BRICS nations This book contains both policies and methods used for the management of waste in BRICS nations. The chapters incorporate both policies and practical aspects.

In an Indian household, the cleaning up of the house is the first step towards the celebration of an approaching festival. Not only it is hygienic but the symbolic significance of the festival is enhanced many times by this act of cleaning. It symbolizes purity of mind and clarity of thoughts before one goes to pray and celebrate an event of importance. These acts lead us to the attainment of the ultimate elation, where the body is in the pink of health and the mind is in the depths of joy. Such insight and farsightedness in thought and actions have been the hallmark of the Indian history. These actions are nothing but the manifestations of our rich cultural heritage. A festival is a symbol of a prosperous society and a rich culture; it signifies growth and development. Therefore, any development, any growth is no less than a festival and the primary step to a celebration, which starts with cleanliness. For India, ŌSwachh Bharat AbhiyanŌ is nothing but the first step towards celebrating development and prosperity. Certainly this book will facilitate the fulfillment of Swachh Bharat Abhiyan.
