A complete summary of The 67 Steps by Tai Lopez. We all want to succeed. And one path to success is identifying the habits that can help us on our journey. The 67 Steps program contains hours of online videos. Don't have time to watch countless hours of unedited videos? We get it -- most of us don't. That's why we summarized the entire program for you. Other summaries leave out information or remove steps all together. If you are looking for ways to improve your life, you have obviously decided to take action and this is a great place to start.

The “H” in the H factor stands for “Honesty-Humility,” one of the six basic dimensions of the human personality. People who have high levels of H are sincere and modest; people who have low levels are deceitful and pretentious. It isn’t intuitively obvious that traits of honesty and humility go hand in hand, and until very recently the H factor hadn’t been recognized as a basic dimension of personality. But scientific evidence shows that traits of honesty and humility form a unified group of personality traits, separate from those of the other five groups identified several decades ago. This book, written by the discoverers of the H factor, explores the scientific findings that show the importance of this personality dimension in various aspects of people’s lives: their approaches to money, power, and sex; their inclination to commit crimes or obey the law; their attitudes about society, politics, and religion; and their choice of friends and spouse. Finally, the book provides ways of identifying people who are low in the H factor, as well as advice on how to raise one’s own level of H.

Here is the story of Jerry Weintraub: the self-made, Brooklyn-born, Bronx-raised impresario, Hollywood producer, legendary deal maker, and friend of politicians and stars. No matter where nature has placed him--the club rooms of Brooklyn, the Mafia dives of New York's Lower East Side, the wilds of Alaska, or the hills of Hollywood--he has found a way to put on a show and sell tickets at the door. "All life was a theater and I wanted to put it up on a stage," he writes. "I wanted to set the world under a marquee that read: 'Jerry Weintraub Presents.'" In WHEN I STOP TALKING, YOU'LL KNOW I'M DEAD, we follow Weintraub from his first great success at age twenty-six with Elvis Presley, whom he took on the road with the help of Colonel Tom Parker; to the immortal days with Sinatra and Rat Pack glory; to his crowning hits as a movie producer, starting with Robert Altman and Nashville, continuing with Oh, God!, The Karate Kid movies, and Diner, among others, and summiting with Steven Soderbergh and Ocean's Eleven, Twelve, and Thirteen. Along the way, we'll watch as Jerry moves from the poker tables of Palm Springs (the games went on for days), to the power rooms of Hollywood, to the halls of the White House, to Red Square in Moscow and the Great Palace in Beijing--all the while counseling potentates, poets, and kings, with clients and confidants like George Clooney, Bruce Willis, George H. W. Bush, Armand Hammer, Brad Pitt, Matt Damon, Bob Dylan, Led Zeppelin, John Denver, Bobby Fischer . . . well, the list goes on forever. And of course, the story is not yet over . . . as the old-timers say, "The best is yet to come." As Weintraub says, "When I stop talking, you'll know I'm dead." With wit, wisdom, and the cool confidence that has colored his remarkable career, Jerry chronicles a quintessentially American journey, one marked by luck, love, and improvisation. The stories he tells and the lessons we learn are essential, not just for those who love movies and music, but for businessmen, entrepreneurs, artists . . . everyone.

A simple 67 steps summary from Tai Lopez's 67 program to get started and understand the core concepts.

Today we are living longer than ever before, and a few of us can expect to live to 100 or more. But many people feel that they will inevitably suffer the diseases of old age in their final years. Pharmaceutical companies have spent billions of dollars trying to find a cure for the "diseases of aging"—they may have found ways to stem some of the symptoms, but they have yet to find a panacea. Yet there are places in the world where, all along, people have commonly lived to 100 or more without suffering so much as a headache. How do they do it? The answer is simple: through sound dietary habits and balanced, healthy lifestyles. The 50 Secrets of the World's Longest Living People looks at the nutrition and lifestyle mores of the world's five most remarkable longevity hotspots—Okinawa, Japan; Bama, China; Campodimele, Italy; Symi, Greece; and Hunza, Pakistan—and explains how we too can incorporate the wisdom of these people into our everyday lives. It offers each of the secrets in detail, provides delicious, authentic recipes, and outlines a simple-to-master plan for putting it all together and living your best, and longest, life.

From the national bestselling author of Racing Weight, Matt Fitzgerald exposes the irrationality, half-truths, and downright impossibility of a “single right way” to eat, and reveals how to develop rational, healthy eating habits. From “The Four Hour Body,” to “Atkins,” there are diet cults to match seemingly any mood and personality type. Everywhere we turn, someone is preaching the “One True Way” to eat for maximum health. Paleo Diet advocates tell us that all foods less than 12,000 years old are the enemy. Low-carb gurus demonize carbs, then there are the low-fat prophets. But they agree on one thing: there is only one true way to eat for maximum health. The first clue that that is a fallacy is the sheer variety of diets advocated. Indeed, while all of these competing views claim to be backed by “science,” a good look at actual nutritional science itself suggests that it is impossible to identify a single best way to eat. Fitzgerald advocates an agnostic, rational approach to eating habits, based on one’s own habits, lifestyle, and genetics/body type. Many professional athletes already practice this “Good Enough” diet, and now we can too and ditch the brainwashing of these diet cults for good.

Severing a relationship is one of life's most painful experiences and cutting those ties can feel like ending an addiction. "Exaholics" offers meaningful support to anyone trapped in the obsessive pain of a broken attachment. She helps the brokenhearted heal, showing them how to understand the emotional processes at work inside themselves, find the path to recovery, and free themselves of shame, injured ego, and remorse."

Have you ever felt you’re not getting through to the person you’re talking to, or not coming across the way you intend? You’re not alone. That’s the bad news. But there is something we can do about it. Heidi Grant Halvorson, social psychologist and bestselling author, explains why we’re often misunderstood and how we can fix that. Most of us assume that other people see us as we see ourselves, and that they see us as we truly are. But neither is true. Our everyday interactions are colored by subtle biases that distort how others see us—and also shape our perceptions of them. You can learn to clarify the message you’re sending once you understand the lenses that shape perception: • Trust. Are you friend or foe? • Power. How much influence do you have over me? • Ego. Do you make me feel insecure? Based on decades of research in psychology and social science, Halvorson explains how these lenses affect our interactions—and how to manage them. Once you understand the science of perception, you’ll communicate more clearly, send the messages you intend to send, and improve your personal relationships. You’ll also become a fairer and more accurate judge of others. Halvorson even offers an evidence-based action plan for repairing a damaged reputation. This book is not about making a good impression, although it will certainly help you do that. It’s about coming across as you intend. It’s about the authenticity we all strive for.

Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.
