The herb Damiana (the local name of Turn. a.), has long been a domestic medicine in Mexico, where it is used to "invigorate the system." Indian hunters discovered that a decoction of it was a great invigorator after wearisome journeys, and they also found in it a cure for inability to exercise the reproductive functions in both sexes.

It is the winter of 1944. France is under the iron fist of the Nazis. But liberation is just around the corner when the crew of a Lancaster bomber are hit by a Messerschmitt which blazes through the sky in a fiery attack. Only two men survive to parachute and join an ever-growing French Resistance, to play a lethal game of cat and mouse.

This book brings together as complete a record of traditional Yupik rules and rituals as is possible in the late twentieth century. Incorporating elders' recollections of the system of ruled boundaries and ritual passages that guided their parents and grandparents a century ago, Ann Fienup-Riordan brings into focus the complex, creative Yupik world view - expressed by ceremonial exchanges and the cycling of names, gifts, and persons - which continues to shape daily life in communities along the Bering Sea coast. Her analysis is illustrated with many contemporary and historical photographs. Identifying "metaphors to live by," Fienup-Riordan tells of "the Boy Who Went to Live with Seals" and "the Girl Who Returned from the Dead." She explains how in Yupik cosmology their stories illustrate relationships among human beings, animals, and the spirit world - the "boundaries and passages" between death and the renewal of life.

They fought without glory - and without mercy. France, Winter 1944: The long-awaited liberation is at hand The bombing missions had gone well, and the crew of the Lancaster bomber had begun to relax. Then the Messerschmitt came out of the darkness, its guns blazing. Of the nine-man crew only Neville and Urghart survive, parachuting into the heart of occupied France. Joining forces with the men of the French Resistance, they must enter a deadly game of cat and mouse with a ruthless enemy... A nerve-shredding thriller of the Second World War, steeped in historical research, perfect for fans of Alistair MacLean, Jack Higgins and Wilbur Smith.

Written from an American Indian perspective with input from religious scholars and community leaders, this pioneering reference work explores indigenous North American religions and religious practices and rituals.

Pestilence is a witty satire in the tradition of Chaucer, Boccacio, and Voltaire. In a vivid, picaresque narrative, Roberts contrasts the impoverishment and restrictions of life in a remote medieval Welsh community with the elegance and refinement of Cairo's Madrasa Academy, from which the young student Salah Ibn al Khatib is sent on a secret mission of revenge into the dark and Boschian heart of Europe. With im goes something implacable and murderous: pestilence. During his bizarre and exotic journeys, he encounters whores and rogues, popes and priests, kings and queens. In rural Wales, on the very edge of civilization, grinding poverty, hunger, superstition, and the shackles of feudalism bind peasant, priest, and even the Lady of the Manor. This black, comic novel enacts a dance of death in its searching inquiry into the nature of medieval life.
