HOW MANY PEOPLE WOULD YOU KILL TO LIVE FOREVER? Imagine a world where soldiers regenerate and continue fighting without pause, where suicide bombers live to strike again and again. This is the dream of Richard Ridley, founder of Manifold Genetics, and he has just discovered the key to eternal life: an ancient artifact buried beneath a Greek-inscribed stone in the Peruvian desert. When Manifold steals the artifact and abducts archeologist Dr. George Pierce, United States Special Forces Delta operator Jack Sigler, call sign King, and his "Chess Team"—Queen, Knight, Rook, Bishop, and their handler, Deep Blue—give chase. Formed under special order from President Duncan, they are the best of America's Special Forces, tasked with antiterrorism missions that take them around the world against any threat, ancient, modern, and at times, inhuman. With cutting-edge weapons, tough-as-nails tactics, and keen intellects, they stand alone on the brink, facing the world's most dangerous threats. Ridley's plan to create unstoppable soldiers has just made him threat number one. Tension soars along with the body count as the team faces high-tech security forces, hordes of "regeins," the horrific results of Manifold's experiments, and a resurrected mythological predator complete with regenerative abilities, seven heads, and a savage appetite. The Chess Team races to save Pierce and stop Manifold before they change the face of genetics—and human history—forever. Heart-pounding action combines with adrenaline-charged suspense in the first of Jeremy Robinson's smart, sharp series featuring the Chess Team.

What does it take to change the world? This book will show you how to harness the power of CASCADES to create a revolutionary movement! If you could make a change—any change you wanted—what would it be? Would it be something in your organization or your industry? Maybe something it's in your community or throughout society as a whole? Creating true change is never easy. Most startups don't survive. Most community groups never get beyond small local actions. Even when a spark catches fire and protesters swarm the streets, it often seems to fizzle out almost as fast as it started. The status quo is, almost by definition, well entrenched and never gives up without a fight. In this groundbreaking book, one of today's top innovation experts delivers a guide for driving transformational change. To truly change the world or even just your little corner of it, you don't need a charismatic leader or a catchy slogan. What you need is a cascade: small groups that are loosely connected but united by a common purpose. As individual entities, these groups may seem inconsequential, but when they synchronize their collective behavior as networks, they become immensely powerful. Through the power of cascades, a company can be made anew, an industry disrupted, or even an entire society reshaped. As Satell takes us through past and present movements, he explains exactly why and how some succeed while others fail.

Why do some teams thrive, while others struggle? In the modern workplace, employees collaborate. Managers are expected to be effective team leaders and employees are expected to be valued teammates. But many teams struggle. Being part of a struggling team can be unpleasant, but it can also hurt your career and waste company resources. In Teams That Work, Scott Tannenbaum and Eduardo Salas present the seven drivers of team effectiveness and the clearest recommendations on what really makes teams great. Applying the lessons they've learned from working with high-stakes, high-risk team situations to any kind of organization, they will dispel some of the most enduring myths (e.g., can you be both a star and a great team player?), feature the most useful psychological research, and share real-world illustrations of effective teams in action. Readers will find actionable, evidence-based tips for being an effective team leader, a great team member, a supportive senior leader, or an impactful consultant.

Speaking directly to the team member about team life, a former coach and professional basketball player offers friendly, folksy, often humorous advice for team members in any organization dealing with difficult situations and problem players.
