Research Paper (postgraduate) from the year 2008 in the subject Sociology - Children and Youth, grade: 1.5, Mindanao State University, course: Sociology, language: English, abstract: The problems of teenagers involving drug abuse and alcohol abuse are primarily caused by stressful life events, peer influence, and failure of parents to take their children away from harmful activities. Besides, drug abuse and alcohol abuse might lead to sexual abuse or molestation and teenage pregnancy as well as the commission of violent crimes. This paper is aimed at studying these factors for the benefit of the government, academe, church, organizations and other institutions, the members of which are advocates of helping teenagers who have problems on alcohol and drug abuse.

The purpose of this collection is to provide a forum to integrate pre-clinical and clinical investigations regarding the long-term consequences of adolescent exposure to drugs of abuse. Adolescence is characterized by numerous behavioral and biological changes, including substantial neurodevelopment. Behaviorally, adolescents are more likely to engage in risky activities and make impulsive decisions. As such, the majority of substance use begins in adolescence, and an earlier age of onset of use ( Copyright code : d794bbc49237052273ca0c7471e5c1a1
