This book contains a dozen entertaining stories in Latin verse (with new translations and commentaries by John Henderson) written by a member of the palace staff of the emperors Augustus and Tiberius. The stories included range from pointed contemporary anecdote, amusing cameos of the emperors, to legendary parables thus appealing to students, scholars, and the interested general reader.

John Henderson explores three letters of Seneca describing visits to Roman villas, and surveys the whole collection to show how these villas work as designs for contrasting lives. Seneca's own place is ageing drastically; a recent Epicurean's paradise is a seductive oasis away from the dangers of Nero's Rome; once a fortress of the dour Rome of yesteryear, the legendary Scipio's lair was now a shrine to the old morality. Seneca revels in its primitive bath-house, dark and cramped, before exploring the garden with the present owner. Seneca brings the philosophical epistle to Latin literature, creating models for moralizing which feature self-criticism, parody and re-animated myth. Virgil and Horace come in for rough handling, as the Latin moralist wrests ethical practice and writing away from Greek gurus and texts, and into critical thinking within a Roman context. Here is powerful teaching on metaphor and translation, on self-transformation and cultural tradition.

In SPQR, an instant classic, Mary Beard narrates the history of Rome "with passion and without technical jargon" and demonstrates how "a slightly shabby Iron Age village" rose to become the "undisputed hegemon of the Mediterranean" (Wall Street Journal). Hailed by critics as animating "the grand sweep and the intimate details that bring the distant past vividly to life" (Economist) in a way that makes "your hair stand on end" (Christian Science Monitor) and spanning nearly a thousand years of history, this "highly informative, highly readable" (Dallas Morning News) work examines not just how we think of ancient Rome but challenges the comfortable historical perspectives that have existed for centuries. With its nuanced attention to class, democratic struggles, and the lives of entire groups of people omitted from the historical narrative for centuries, SPQR will to shape our view of Roman history for decades to come.

The Material Life of Roman Slaves is a major contribution to scholarly debates on the archaeology of Roman slavery. Rather than regarding slaves as irretrievable in archaeological remains, the book takes the archaeological record as a key form of evidence for reconstructing slaves' lives and experiences. Interweaving literature, law, and material evidence, the book searches for ways to see slaves in the various contexts - to make them visible where evidence tells us they were in fact present. Part of this project involves understanding how slaves seem irretrievable in the archaeological record and how they are often actively, if unwittingly, left out of guidebooks and scholarly literature. Individual chapters explore the dichotomy between visibility and invisibility and between appearance and disappearance in four physical and social locations - urban houses, city streets and neighborhoods, workshops, and villas.

This collection of essays offers a comprehensive examination of the varied dynamics and strategies of political discourse and its concealment in Latin literature in the late republic and especially the early empire at Rome.

Roman comedy evolved early in the war-torn 200s BCE. Troupes of lower-class and slave actors traveled through a militarized landscape full of displaced persons and the newly enslaved; together, the actors made comedy to address mixed-class, hybrid, multilingual audiences. Surveying the whole of the Plautine corpus, where slaves are central figures, and the extant fragments of early comedy, this book is grounded in the history of slavery and integrates theories of resistant speech, humor, and performance. Part I shows how actors joked about what people feared - natal alienation, beatings, sexual abuse, hard labor, hunger, poverty - and how street-theater forms confronted debt, violence, and war loss. Part II catalogues the onstage expression of what people desired: revenge, honor, free will, legal personhood, family, marriage, sex, food, free speech; a way home, through memory; and manumission, or escape - all complicated by the actors' maleness. Comedy starts with anger.
