A Jungian psychologist explains how careful analyses of fairy tales like "Beauty and the Beast" can lead to a better understanding of human psychology. Of the various types of mythological literature, fairy tales are the simplest and purest expressions of the collective unconscious and thus offer the clearest understanding of the basic patterns of the human psyche. Every people or nation has its own way of experiencing this psychic reality, and so a study of the world's fairy tales yields a wealth of insights into the archetypal experiences of humankind. Perhaps the foremost authority on the psychological interpretation of fairy tales is Marie-Louise von Franz. In this book—originally published as *An Introduction to the Interpretation of Fairy Tales*—she describes the steps involved in analyzing and illustrates them with a variety of European tales, from "Beauty and the Beast" to "The Robber Bridegroom." Dr. von Franz begins with a history of the study of fairy tales and the various theories of interpretation. By way of illustration she presents a detailed examination of a simple Grimm's tale, "The Three Feathers," followed by a comprehensive discussion of motifs related to Jung's concept of the shadow, the anima, and the animus. This revised edition has been corrected and updated by the author.

A famous child psychologist explains how fairy tales educate, support, and liberate the emotions of children.

Considers the profound influence of fairy tales on contemporary fiction, including the work of Margaret Atwood, A.S. Byatt, Angela Carter, Robert Coover, Salman Rushdie, and Jeanette Winterson.

Dazai Osamu wrote *The Fairy Tale Book* (Otogizoshi) in the last months of the Pacific War. The traditional tales upon which Dazai's retellings are based are well known to every Japanese schoolchild, but this is no children's book. In Dazai's hands such stock characters as the kindhearted Oji-san to Oba-san ("Grandmother and Grandfather"), the mischievous tanuki badger, the fearsome Oni ogres, the greedy old man, the "tongue-cut" sparrow, and of course Urashima Taro (the Japanese Rip van Winkle) become complex individuals facing difficult and nuanced moral dilemmas. The resulting stories are thought-provoking, slyly subversive, and often hilarious. In spite of the "gloom and doom" atmosphere always cited in reviews of *The Setting Sun* and the later *No Longer Human*, though, Dazai's cutting wit and rich humor are evident in the entire body of his work. His literature depicts the human condition in painfully blunt and realistic terms, but, like life itself, is often accompanied by a smile.

Original Disney Stories Are they really that different from the ones on the movies? Yes, They are. Want an idea of how dark the original Disney stories are? Here's a taste... Rapunzel got pregnant and had twins. Just saying. If you want Scary Disney stories... this book is for you. If you want to read Disney variations... this book is for you. If you want to know the origin of all these stories... you know. This book is a collection of stories from the Brothers Grimm, which are the actual authors of some of the most beloved Disney stories and other well-known folk stories. They compiled all these stories through years of research, to preserve these pieces of the German culture for future generations. Inside you will find the original stories of Snowwhite, Rapunzel, Rumpelstiltskin, Little red riding-hood, Hanzel & Gretel, just to say a few. But these

are not like the beautiful stories Disney made you fall in love with. The original stories are raw, dark, and some may even be taken as horror stories. Which makes them great for readers like you, tired of those happily ever after. These stories were created to leave a piece of moral knowledge to the reader. Although not doing so in the most child-friendly way. Which is way more fun!

An annotated volume of the great Danish storyteller complements favorite classics with such lesser-known and mature works as "The Shadow" and "Story of a Mother," in a collection that offers insight into Andersen's literary range and influence. 30,000 first printing.

With a lively, upbeat, and forward-looking approach, this innovative reader is geared toward today's technology-savvy and media-saturated individual.
