He accompanied the leaders to all major events within and outside Nigeria, and this book is his diary on people and events during that period. A comprehensive review of contemporary antisense oligonucleotides drugs and therapeutic principles, methods, applications, and research Oligonucleotide-based drugs, in particular antisense oligonucleotides, are part of a growing number of pharmaceutical and biotech programs progressing to treat a wide range of indications including cancer, cardiovascular, neurodegenerative, neuromuscular, and respiratory diseases, as well as other severe and rare diseases. Reviewing fundamentals and offering guidelines for drug discovery and development, this book is a practical guide covering all key aspects of this increasingly popular area of pharmacology and biotech and pharma research, from the basic science behind antisense oligonucleotides chemistry, toxicology, manufacturing, to safety assessments, the design of therapeutic protocols, to clinical experience. While the idea of antisense oligonucleotides to target single genes dates back to the 1970's, most advances have taken place in recent years. The increasing number of antisense

monumental proportions. Will Hyde and Closer survive the dastardly plans of the Watcher in the Window?! -- VIZ Media

The Nigerian and West African practice of aso ebi fashion invokes notions of wealth and group dynamics in social gatherings. Okechukwu Nwafor's volume *Aso ebi* investigates the practice in the cosmopolitan urban setting of Lagos, and argues that the visual and consumerist hype typical of the late capitalist system feeds this unique fashion practice. The book suggests that dress, fashion, aso ebi, and photography engender a new visual culture that largely reflects the economics of mundane living. Nwafor examines the practice's societal dilemma, whereby the solidarity of aso ebi is dismissed by many as an ephemeral transaction. A circuitous transaction among photographers, fashion magazine producers, textile merchants, tailors, and individual fashionistas reinvents aso ebi as a product of cosmopolitan urban modernity. The results are a fetishization of various forms of commodity culture, personality cults through mass followership, the negotiation of symbolic power through mass-produced images, exchange value in human relationships through gifts, and a form of exclusion achieved through digital photo editing. Aso ebi has become an essential part of Lagos cosmopolitanism: as a rising form of a unique visual culture it is central to the unprecedented spread of a unique West African fashion style that revels in excessive textile overflow. This extreme dress style is what an individual requires to transcend the lack imposed by the chaos of the postcolonial city.
